

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Fernando Medina
DOCKET NO.: 21-56334.001-R-1
PARCEL NO.: 13-35-416-017-0000

The parties of record before the Property Tax Appeal Board are Fernando Medina, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,275
IMPR.: \$20,000
TOTAL: \$33,275

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story building of masonry exterior construction with 1,992 square feet of building area. The building is approximately 128 years old. Features include a basement and a 1-car garage. The property has a 4,425 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the same assessment neighborhood code as the subject and within 0.50 of a mile from the subject. The comparables are improved with 2-story, class 2-11 buildings of masonry exterior construction ranging in size from 1,846 to 1,992 square feet of building area. The buildings range in age from 112 to 129 years old and each comparable

features a basement. The comparables have improvement assessments ranging from \$16,425 to \$19,334 or from \$8.25 to \$9.73 per square foot of building area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment to \$18,406.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$39,490. The subject property has an improvement assessment of \$26,215 or \$13.16 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject and on the same block as the subject. The comparables are improved with 1.5-story or 2-story, class 2-11 buildings of masonry or frame exterior construction ranging in size from 1,694 to 2,454 square feet of building area. The buildings range in age from 116 to 143 years old. Three comparables each have a basement and one comparable has a slab foundation. One comparable has three fireplaces. Each comparable has a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$26,625 to \$32,625 or from \$13.29 to \$16.90 per square foot of building area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Adm.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Adm.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains a total of nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #4 and the board of review's comparables, due to substantial differences from the subject in building size, age, and/or foundation type.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #2, #3, and #5, which are more similar to the subject in building size, age, location, and most features, although these comparables each lack a garage that is a feature of the subject, suggesting upward adjustments to these comparables would be needed to make them more equivalent to the subject. These comparables have improvement assessments that range from \$16,425 to \$19,334 or from \$8.25 to \$9.69 per square foot of building area. The subject's improvement assessment of \$26,215 or \$13.16 per square foot of building area falls above the range established by the best comparables in this record. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
