

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sally McGovern
DOCKET NO.: 21-56373.001-R-1
PARCEL NO.: 13-08-319-005-0000

The parties of record before the Property Tax Appeal Board are Sally McGovern, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,503
IMPR.: \$22,500
TOTAL: \$30,003

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame construction with 1,144 square feet of living area which is approximately 94 years old. Features of the home include one bathroom, a full unfinished basement, and a 2-car garage. The property has a 3,750 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property¹ under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located from .17 to .55 of a mile from the subject and within the same assessment neighborhood code as the subject property. The comparables consist of 1.5-story dwellings of frame construction ranging in size from 1,134 to 1,200 square feet of living area and ranging in

¹ One-story residence, any age, with 1,000 to 1,800 square feet of living area.

age from 93 to 101 years old. Each comparable features a full unfinished basement; one comparable has central air conditioning; and four comparables have from a 1.5-car to a 2.5-car garage. The comparables have improvement assessments that range from \$12,202 to \$19,820 or from \$10.76 to \$16.52 per square foot of living area. The appellant also submitted a brief requesting a reduction to the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$30,003. The subject property has an improvement assessment of \$22,500 or \$19.67 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same block as the subject and within the same assessment neighborhood code as the subject property. The comparables consist of 1-story class 2-03 dwellings of frame or masonry construction ranging in size from 1,027 to 1,052 square feet of living area and each being 93 years old. Each comparable features 1 or 2.5 baths; two comparables have a full unfinished basement (the other two being built on a concrete slab foundation); and three comparables have either a 1.5-car or a 2-car garage. The comparables have improvement assessments that range from \$20,745 to \$22,541 or from \$20.20 to \$21.57 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables for the Board's consideration. The Board gave less weight to appellant's comparables based on differing 1.5-story designs when compared with the subject's 1-story style dwelling. The Board also gave less weight to board of review comparables #3 and #4 due to having concrete slab foundations which differ from the subject's basement foundation. The Board finds the best evidence of equity in assessment to be board of review comparables #1 and #2 which are overall most similar to the subject in location, design, age, dwelling size, foundation, and features. The best comparables in the record have improvement assessments of \$22,314 and \$22,541 or \$21.21 and \$21.57 per square foot of living area. The subject's improvement assessment of \$22,500 or \$19.67 per square foot of living area is bracketed by the two best comparables in this record in terms of overall improvement assessment and is below on a per square foot of living area basis.

On this record, the Board finds that the subject's improvement is equitably assessed and, therefore, no reduction in the subject's improvement is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
