

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Peter Lorenz
DOCKET NO.: 21-57435.001-R-1
PARCEL NO.: 13-03-222-059-0000

The parties of record before the Property Tax Appeal Board are Peter Lorenz, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,400
IMPR.: \$30,005
TOTAL: \$42,405

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 1,694 square feet of living area. The dwelling is approximately 80 years old. Features of the home include a concrete slab foundation and 2 bathrooms. The property has a 4,960 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject and from .2 of a mile to 1.5-miles from the subject along with printouts of the properties from the assessor's website. The comparables consist of class 2-05 two-story dwellings of masonry exterior construction. The dwellings range in age from 72 to 85 years old. The homes range in size from 1,751 to 1,996

square feet of living area. Each comparable has a full basement, 1 to 2 bathrooms, and comparable #1 has central air conditioning and a fireplace. Comparables #1 and #3 have one-car and three-car garages, respectively. The comparables have improvement assessments ranging from \$41,500 to \$49,001 or from \$17.34 to \$17.94 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$30,005 or \$17.71 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$45,264. The subject property has an improvement assessment of \$32,864 or \$19.40 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and same tax block as the subject. The comparables consist of class 2-05 two-story dwellings of masonry exterior construction that range in age from 72 to 80 years old. The homes range in size from 1,659 to 1,892 square feet of living area. Each comparable has a full basement, two of which have finished area, 2 to 3 bathrooms, and comparables #2 and #4 each have central air conditioning. Each comparable has one or two fireplaces and either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$34,999 to \$48,655 or from \$20.08 to \$26.58 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparable #1 as well as board of review comparables #2 and #4, which have central air conditioning, not a feature of the subject. The Board has given reduced weight to appellant's comparable #2, which is approximately 18% larger than the subject dwelling.

The Board finds the best evidence of assessment equity in the record are appellant's comparable #3 along with board of review comparables #1 and #3, which are each relatively similar to the subject property in design, dwelling size and some features. Each comparable necessitates downward adjustments for basement foundations as compared to the subject's slab foundation. Likewise, each of these best comparables have garages which is not a feature of the subject property suggesting additional downward adjustments and one comparable has a fireplace, also

not a feature of the subject. The Board finds these comparables have improvement assessments ranging from \$31,270 to \$35,770 or from \$17.86 to \$21.56 per square foot of living area. The subject's improvement assessment of \$32,864 or \$19.40 per square foot of living area falls within the range established by the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis. However, the Board finds upon thorough consideration of the subject's lack of a basement and lack of a garage which are amenities of each of the best comparables, the subject's assessment appears to be inequitable.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject property, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
