

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jerry White
DOCKET NO.: 22-00386.001-R-1
PARCEL NO.: 10-33-201-127

The parties of record before the Property Tax Appeal Board are Jerry White, the appellant, by attorney Andrew J. Rukavina of The Tax Appeal Company in Mundelein; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$37,024
IMPR.: \$146,214
TOTAL: \$183,238

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick and frame¹ exterior construction with 3,573 square feet of living area. The dwelling was constructed in 2006. Features of the home include a basement, central air conditioning, a fireplace and a 703 square foot garage. The property has an approximately 18,000 square foot site and is located in Hawthorn Woods, Fremont Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on five comparable sales that have the same assessment neighborhood code as the subject and are located within .26 of a mile from the subject property. The parcels range in size from 18,630 to 25,770 square feet of land area. The comparables are

¹ The subject's property record card provided by the board of review disclosed the subject dwelling has a brick and frame exterior construction, which was not refuted by the appellant.

improved with two-story dwellings of brick or brick and wood siding exterior construction ranging in size from 3,544 to 4,229 square feet of living area. The dwellings were built from 2005 to 2008. The comparables each have a basement, three of which have finished area and three of which are walk-out styles. Each comparable has central air conditioning, one or two fireplaces and a garage ranging in size from 662 to 798 square feet of building area. The comparables sold from February 2020 to October 2021 for prices ranging from \$500,000 to \$625,000 or from \$118.23 to \$152.63 per square foot of living area, including land.

The appellant also submitted a grid analysis labeled "Assessor Comps" that included information on five comparable sales with handwritten notations purportedly pointing out the differences between the comparables and the subject.

Based on this evidence, the appellant requested the subject's assessment be reduced to \$174,737, which would reflect a market value of \$524,263 or \$146.73 per square foot of above ground living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$183,238. The subject's assessment reflects a market value of \$549,769 or \$153.87 per square foot of living area, land included, when using the statutory level of assessment of 33.33%.²

In support of its contention of the correct assessment the board of review submitted information on five comparable sales that have the same assessment neighborhood code as the subject and are located within .71 of a mile from the subject property. The parcels range in size from 14,890 to 32,620 square feet of land area. The board of review reported the comparables are improved with one-story³ or two-story dwellings of brick or wood siding and brick exterior construction ranging in size from 3,248 to 3,652 square feet of living area. The dwellings were each built in 2005. The comparables each have a basement, one of which is a walk-out with finished area. Each comparable has central air conditioning, a fireplace and a garage ranging in size from 480 to 703 square feet of building area. The comparables sold from November 2020 to April 2022 for prices ranging from \$545,000 to \$699,000 or from \$159.58 to \$212.85 per square foot of living area, including land. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or

² Procedural rule Sec. 1910.50(c)(1) provides that in all counties other than Cook, the three-year county wide assessment level as certified by the Department of Revenue will be considered. 86 Ill.Admin.Code Sec. 1910.50(c)(1). As of the development of this Final Administrative Decision, the Department of Revenue has not published figures for tax year 2022.

construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of ten comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables, as well as board of review comparable #5 which differ from the subject in dwelling size and/or have sale dates that occurred in 2020, less proximate in time to the January 1, 2022 assessment date than the other sales in the record.

The Board finds the best evidence of market value to be board of review comparables #1, #2, #3 and #4, which sold more proximate in time to the January 1, 2022 assessment date and are similar to the subject in location, dwelling size, age and some features. These four comparables sold from July 2021 to April 2022 for prices ranging from \$552,000 to \$699,000 or from \$159.58 to \$212.85 per square foot of living area, including land. The subject's assessment reflects a market value of \$549,769 or \$153.87 per square foot of living area, including land, which falls below the range established by the best comparable sales in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
