

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ranjan Chatterjee
DOCKET NO.: 22-00401.001-R-1
PARCEL NO.: 14-22-309-040

The parties of record before the Property Tax Appeal Board are Ranjan Chatterjee, the appellant, by attorney Andrew J. Rukavina of The Tax Appeal Company in Mundelein; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$68,604
IMPR.: \$223,827
TOTAL: \$292,431

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and brick exterior construction with 4,298 square feet of living area. The dwelling was constructed in 2002. Features of the home include a walk-out basement, central air conditioning, a fireplace and an 890 square foot garage. The property has an approximately 29,808 square foot site and is located in Kildeer, Ela Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on five comparable sales that have the same assessment neighborhood code as the subject and are located within .23 of a mile from the subject property. The parcels range in size from 22,142 to 24,555 square feet of land area. The comparables are improved with two-story dwellings of brick or brick and frame exterior construction ranging in size from 4,882 to 5,275 square feet of living area. The dwellings were built from 2003 to 2007.

The comparables each have a basement, two of which are look-out designs and two of which are walk-out designs. The grid analysis has handwritten notations indicating three of the five basements have finished area. Each comparable has central air conditioning, two or three fireplaces and a garage ranging in size from 726 to 890 square feet of building area. The comparables sold from February to December 2021 for prices ranging from \$750,000 to \$1,050,000 or from \$149.49 to \$199.05 per square foot of living area, including land.

The appellant also submitted a grid analysis labeled "Assessor Comps" that included information on four comparable sales presumably presented at the local hearing with handwritten notations pointing out the differences between the comparables and the subject. However, only three comparables in the grid analysis are found in the evidence presented by the board of review.

Based on this evidence, the appellant requested the subject's assessment be reduced to \$257,181, which would reflect a market value of \$771,620 or \$179.53 per square foot of ground living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$292,431. The subject's assessment reflects a market value of \$877,381 or \$204.14 per square foot of living area, land included, when using the statutory level of assessment of 33.33%.¹

In support of its contention of the correct assessment the board of review submitted information on three comparable sales that have the same assessment neighborhood code as the subject and are located within .30 of a mile from the subject property. The parcels range in size from 22,446 to 28,262 square feet of land area. The comparables are improved with two-story dwellings of brick or frame exterior construction ranging in size from 3,899 to 4,739 square feet of living area. The dwellings were built from 2003 to 2005. The comparables each have a basement, one of which is a look-out design and one of which is a walk-out design. Each comparable has central air conditioning, one to three fireplaces and a garage ranging in size from 746 to 936 square feet of building area. The comparables sold from September 2021 to February 2022 for prices ranging from \$860,000 to \$980,000 or from \$206.79 to \$224.49 per square foot of living area, including land. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or

construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables, as well as board of review comparable #3 due to their larger dwelling sizes, when compared to the subject.

The Board finds the best evidence of market value to be board of review comparables #1 and #2 which are most similar to the subject in dwelling size and similar to the subject in location, design, age and some features. These two most similar comparables sold in September 2021 and February 2022 for prices of \$860,000 and \$880,000 or for \$220.57 and \$224.49 per square foot of living area, including land. The subject's assessment reflects a market value of \$877,381 or \$204.14 per square foot of living area, including land, which is bracketed by the two best comparable sales in the record in terms of overall market value but less than the comparables on a price per square foot basis. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
