

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jeong Kim  
DOCKET NO.: 22-00584.001-R-1  
PARCEL NO.: 14-12-101-033

The parties of record before the Property Tax Appeal Board are Jeong Kim, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$52,685  
**IMPR.:** \$175,760  
**TOTAL:** \$228,445

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of brick exterior construction with 3,937 square feet of living area. The dwelling was constructed in 1991 and is approximately 31 years old. Features of the home include an unfinished basement, central air conditioning, one fireplace, and a garage with 760 square feet of building area. The property has an approximately 60,711 square foot site and is located in Long Grove, Ela Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the subject's assessment neighborhood code. The comparables are improved with 2-story dwellings of brick or wood siding exterior construction ranging in size from 3,709 to 4,234 square feet of living area. The dwellings range in age from 28 to 33 years old. Each comparable has an unfinished basement, central air conditioning, two or three

fireplaces, and a garage ranging in size from 668 to 851 square feet of building area. The comparables have improvement assessments ranging from \$135,025 to \$167,615 or from \$35.07 to \$39.99 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment to \$150,491 or \$38.22 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$228,445. The subject property has an improvement assessment of \$175,760 or \$44.64 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables located in the subject's assessment neighborhood code. The comparables are improved with 2-story dwellings of brick exterior construction ranging in size from 3,911 to 4,292 square feet of living area. The dwellings were built from 1990 to 1999 and thus would range in age from approximately 23 to 32 years old. The comparables each have an unfinished basement, with one described as a walkout. Each comparable has central air conditioning, one or two fireplaces, and a garage ranging in size from 697 to 996 square feet of building area. The comparables have improvement assessments ranging from \$180,402 to \$200,409 or from \$43.37 to \$49.90 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables for the Board's consideration. The Board finds the parties' comparables which are each similar to the subject in location, design, age, and dwelling size with varying degrees of similarity of other features. The comparables have improvement assessments ranging from \$135,025 to \$200,409 or from \$35.07 to \$49.90 per square foot of living area. The subject's improvement assessment of \$175,760 or \$44.64 per square foot of living area falls within the range established by the comparables in this record. Based on this record and after considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
