

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jim Franke
DOCKET NO.: 22-01581.001-R-1
PARCEL NO.: 15-13-308-009

The parties of record before the Property Tax Appeal Board are Jim Franke, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Hawthorn Woods; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$66,192
IMPR.: \$132,409
TOTAL: \$198,601

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 2-story residential dwelling that was built in 1971 with an effective age of 1978. The property has a 19,602 square foot site and is located in Lincolnshire, Vernon Township, Lake County.

The appellant contends assessment inequity regarding the land assessment only as the basis of the appeal. In support of this argument, the appellant submitted information on 12 equity comparables that have the same assessment neighborhood code as the subject and are located within .77 of a mile from the subject property. The improved parcels range in size from 19,602 to 20,473 square feet of land area and have land assessments ranging from \$30,024 to \$40,031 or from \$1.47 to \$2.03 per square foot of land area. Based on this evidence, the appellant requested a reduction in the subject's land assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$198,601. The subject property has a land assessment of \$66,192 or \$3.38 per square foot of land area.

In response to the appeal, the board of review submitted a detailed grid analysis of appellant's comparables #1 through #5 noting all comparables that are located on Half Day Road have a negative land adjustment.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables that have the same assessment neighborhood code as the subject and located within .99 of a mile from the subject property. The improved parcels range in size from 19,602 to 20,473 square feet of land area. The comparables have land assessments ranging from \$66,192 to \$70,054 or from \$3.38 to \$3.48 per square foot of land area. The board of review also submitted a map depicting the locations of appellant's comparables #1 through #5 and the board of review comparables in relation to the subject. Based on this evidence, the board of review requested confirmation of the subject's land assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of 17 land equity comparables for the Board's consideration that are located in the same assessment neighborhood as the subject and similar in size to the subject. However, the appellant's comparables #6 and #7 appear to be outliers as they have considerably lower land assessments than the other comparables submitted by the appellant. The remaining comparables in the record have land assessments ranging from \$39,714 to \$70,054 or from \$1.96 to \$3.48 per square foot of land area. The subject's land assessment of \$66,192 or \$3.38 per square foot of land area falls within the range established by the comparables in the record and is identical to the land assessment of board of review comparable #2 which is most similar to the subject in location and identical in size.

Based on this record, the Board finds the appellant did not prove by clear and convincing evidence that the subject's land was inequitably assessed and therefore, a reduction in the subject's land assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
