

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Todd Drazner
DOCKET NO.: 22-01662.001-R-1
PARCEL NO.: 15-20-306-011

The parties of record before the Property Tax Appeal Board are Todd Drazner, the appellant, by attorney Ronald Kingsley of Lake County Real Estate Tax Appeal, LLC in Hawthorn Woods, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$47,843
IMPR.: \$129,098
TOTAL: \$176,941

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of frame construction with 2,856 square feet of living area. The dwelling was constructed in 1995. Features of the home include a full basement that is partially finished, central air conditioning, one fireplace, and an attached garage with 651 square feet of building area. The property has a 15,246 square foot site located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the land assessment as the basis of the appeal; the appellant is not contesting the improvement assessment. In support of this argument the appellant submitted information on twelve equity comparables each improved with a single-family dwelling. The comparables have the same assessment neighborhood code as the subject property and are located from approximately .10 to .18 of a mile from the subject property. The comparables have sites ranging in size from 14,636 to 15,682 square feet of land

area. These properties have land assessments ranging from \$24,033 to \$36,451 or from \$1.62 to \$2.39 per square foot of land area. The appellant requested the subject's land assessment be reduced to \$31,864.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$176,941. The subject property has a land assessment of \$47,843 or \$3.14 per square foot of land area. In support of its contention of the correct assessment the board of review submitted information on five equity comparables each improved with a single-family dwelling. The comparables have the same assessment neighborhood code as the subject property and are located from approximately .08 to .17 of a mile from the subject property. These properties have sites ranging in size from 13,068 to 14,810 square feet of land area. Their land assessments range from \$41,921 to \$47,612 or from \$3.21 to \$3.38 per square foot of land area. The board of review stated in its analysis that the subject has a +5% adjustment for location on a cul-de-sac.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on seventeen equity comparables to support their respective positions. The comparables have the same assessment neighborhood code as the subject property and are located within .18 of a mile from the subject property. The comparables have sites that are relatively similar to the subject in land area. These properties have land assessments ranging from \$24,033 to \$47,612 or from \$1.62 to \$3.38 per square foot of land area. The subject's land assessment of \$47,843 or \$3.14 per square foot of land area falls above the overall range but within the range on a per square foot of land area basis as established by the comparables in this record. Significantly, the board of review stated that the subject has a +5% adjustment for location on a cul-de-sac, which was not refuted by the appellant, and helps account for the subject's land assessment being at the high end of the range established by the comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's land was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
