

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tracy Wenner
DOCKET NO.: 22-01831.001-R-1
PARCEL NO.: 07-17-114-007

The parties of record before the Property Tax Appeal Board are Tracy Wenner, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Hawthorn Woods; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,893
IMPR.: \$91,676
TOTAL: \$110,569

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 2-story dwelling of wood siding exterior construction with 2,412 square feet of living area. The dwelling was built in 1997. Features of the home include an unfinished basement, central air conditioning, one fireplace, and an attached garage with 525 square feet of building area. The property has an approximately 7,841 square foot site located in Gurnee, Warren Township, Lake County.

The appellant contends assessment inequity with respect to the land assessment as the basis of the appeal; the appellant is not contesting the improvement assessment. In support of this argument, the appellant submitted information on twelve equity comparables each improved with a single-family dwelling. The comparables have the same assessment neighborhood code as the subject, eleven of which are reported to be located within 0.33 of a mile from the subject property. These properties have sites ranging in size from 7,549 to 8,220 square feet of land

area. The comparables have land assessments ranging from \$15,813 to \$17,220 or either \$2.09 or \$2.10 per square foot of land area. The appellant requested the subject's land assessment be reduced to \$16,466 or \$2.10 per square foot of land area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$110,569. The subject property has a land assessment of \$18,893 or \$2.41 per square foot of land area. In support of its contention of the correct assessment, the board of review submitted information on eight equity comparables each improved with a single-family dwelling. The comparables are located within 0.08 of a mile from the subject property, seven of which have the same assessment neighborhood code as the subject. The sites are each 7,840 square feet of land area. The land assessments are each \$18,893 or \$2.41 per square foot of land area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains twenty equity comparables submitted by the parties to support their respective positions. The Board gives less weight to the appellant's comparable #6 for which the proximity to the subject could not be determined.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables. These properties have sites ranging in size from 7,549 to 8,220 square feet of land area. The land assessments range from \$15,813 to \$18,893 or from \$2.09 to \$2.41 per square foot of land area. The subject's land assessment of \$18,893 or \$2.41 per square foot of land area matches the land assessments of the eight comparables in this record with the highest overall and per square foot land assessments.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. *Apex Motor Fuel Co. v. Barrett*, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not all assessed at identical levels, all that the constitution requires is a practical uniformity which exists based on the evidence in this record.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's land was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
