

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Heriberto Chaidez
DOCKET NO.: 22-03648.001-R-1
PARCEL NO.: 03-18-413-020

The parties of record before the Property Tax Appeal Board are Heriberto Chaidez, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$53,640
IMPR.: \$120,190
TOTAL: \$173,830

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of brick and frame exterior construction with 2,751 square feet of living area. The dwelling was constructed in 1988. Features of the home include an unfinished basement, central air conditioning, a fireplace and a 951 square foot garage. The property has an 8,520 square foot site and is located in Addison, Addison Township, DuPage County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on four comparable sales that are located within .14 of a mile from the subject. The comparables have sites ranging in size from 7,847 to 10,200 square feet of land area that are improved with 2-story dwellings of brick or brick and frame exterior construction ranging in size from 3,102 to 3,280 square feet of living area. The dwellings were built in 1988 or 1989. The comparables have unfinished basements, central air conditioning, a

fireplace, and a garage ranging in size from 462 to 810 square feet of building area. The comparables sold from April 2021 to December 2022 for prices ranging from \$430,708 to \$560,000 or from \$134.15 to \$173.70 per square foot of living area, including land.

Based on this evidence the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$173,830. The subject's assessment reflects a market value of \$521,699 or \$189.64 per square foot of living area, land included, when using the 2022 three-year average median level of assessment for DuPage County of 33.32% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on eight comparable sales that are located within .15 of a mile from the subject. The board of review's comparables #2, #3 and #4 are the same properties as the appellant's comparables #3, #4 and #1, respectively. The comparables have sites ranging in size from 7,847 to 13,534 square feet of land area that are improved with 2-story dwellings of brick, frame and brick or brick and frame exterior construction ranging in size from 2,560 to 3,378 square feet of living area. The dwellings were built in 1988 or 1989. The comparables have unfinished basements, central air conditioning, one or two fireplaces, and a garage ranging in size from 462 to 810 square feet of building area. The comparables sold from October 2019 to May 2022 for prices ranging from \$415,000 to \$560,000 or from \$130.25 to \$173.70 per square foot of living area, including land. The board of review included a letter from the Addison Township Assessor's Office acknowledging the subject property was the subject matter of an appeal before the Property Tax Appeal Board a prior year under Docket Number 21-07263.001-R-1 and recommended the subject's 2022 assessment be reduced to \$160,280.

Based on this evidence the board of review requested confirmation of the subject's assessment.

The appellant submitted rebuttal agreeing with the recommendation of the Addison Township Assessor's Office.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of 12 comparable sales for the Board's consideration, three of which were submitted by both parties. The Board gives less weight to the board of review's comparables #5, #6 and #7, due to their sale dates occurring greater than 14 months prior to the January 1, 2022 assessment date at issue. The Board finds the parties' six remaining comparables, which includes the parties' common comparables have varying degrees of similarity to the subject. However, five of the parties' best comparables have considerably larger

dwelling when compared to the subject and each of the best comparables has a smaller garage when compared to the subject. Nevertheless, the best comparables sold from April 2021 to December 2022 for prices ranging from \$415,000 to \$560,000 or from \$130.25 to \$173.70 per square foot of living area, including land. The subject's assessment reflects a market value of \$521,699 or \$189.64 per square foot of living area, including land, which falls within the range established by the best comparables in the record on a total market value basis but above the range on a per square foot basis. However, after considering adjustments to the best comparables for differences when compared to the subject, such as their smaller dwellings, the Board finds the subject's higher per square foot estimated market value as reflected by its assessment is justified. Accepted real estate valuation theory provides, all other factors being equal, as the size of a property increases, its per unit value decreases. Likewise, as the size of a property decreases, its per unit value increases. Based on this analysis, the Board finds the subject's higher per square foot estimated market value as reflected by its assessment is justified given its smaller dwelling size. Based on this evidence the Board finds a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
