

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gerald Gaskin
DOCKET NO.: 22-20208.001-R-1
PARCEL NO.: 12-02-212-005-0000

The parties of record before the Property Tax Appeal Board are Gerald Gaskin, the appellant, by attorney Joanne Elliott, of Elliott & Associates Attorneys, PLLC in Des Plaines, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,310
IMPR.: \$50,276
TOTAL: \$59,586

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,998 square feet of living area and which is approximately 70 years old. Features include a full basement, central air conditioning, a fireplace, and a two-car garage. The property has a 6,650 square foot site and is located in Park Ridge, Norwood Park Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject and from .14 to .64 of a mile from the subject. The comparables consist of class 2-06 two-story dwellings of masonry or frame and masonry exterior construction which range in age from 69 to 76 years old. The

dwelling range in size from 2,902 to 3,263 square feet of living area. Each comparable has a full basement, central air conditioning, and a one-car or a two-car garage. Two comparables each have a fireplace. The comparables have improvement assessments ranging from \$42,170 to \$48,786 or from \$14.53 to \$15.51 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$44,730 or \$14.92 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$59,586. The subject property has an improvement assessment of \$50,276 or \$16.77 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and ¼ of a mile from the subject. The comparables consist of three class 2-06 and one class 2-78 two-story dwellings of frame and masonry exterior construction which range in age from 62 to 73 years old. The dwellings range in size from 2,551 to 2,730 square feet of living area. Each comparable has a full or partial basement with finished area, central air conditioning and from a 1-car to a 2.5-car garage. Three homes have one or two fireplaces. The comparables have improvement assessments ranging from \$50,256 to \$57,690 or from \$19.25 to \$21.32 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to board of review comparables #3 and #4, which differ in dwelling size by more than 12% when compared to the subject.

The Board finds the best comparables in this record consist of appellant's comparables along with the board of review comparables #1 and #2, which present similarities to the subject in location, classification, design, foundation and some features. Each of the best comparables necessitate adjustments for variations in age and dwelling size. Adjustments to some of the best comparables are also necessary for differences in basement finish and/or fireplace amenity/count. Three of the comparables necessitate upward adjustments for their inferior garage capacity when compared to the subject. The best comparables have improvement assessments ranging from

\$42,170 to \$57,690 or from \$14.53 to \$21.32 per square foot of living area. The subject's improvement assessment of \$50,276 or \$16.77 per square foot of living area is within the range of the best comparables both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
