

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Rupany
DOCKET NO.: 22-20374.001-R-1
PARCEL NO.: 01-26-100-023-0000

The parties of record before the Property Tax Appeal Board are James Rupany, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,872
IMPR.: \$41,703
TOTAL: \$63,575

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

Appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is a 72,906 square foot parcel of land improved with a 34-year-old, 1-story, masonry, single-family dwelling, containing 3,011 square feet of living area. Features of the home include a full basement with a formal recreation room, two fireplaces, 3.1 bathrooms, and a 3-car garage. The property is located in South Barrington, Barrington Township, Cook County, and is a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

Appellant contends assessment inequity as the basis of the appeal. In support of its argument, appellant submitted information on six suggested equity comparables. They were each improved with a one-story, single-family dwelling, of masonry construction. They ranged: in size between 2,747 and 3,298 square feet of living area; in improvement assessment between \$12.38 and \$14.11 per square foot of living area; between 2.5 and 4.3 bathrooms; between 1 and 3 fireplaces; and in age between 1 and 45 years old. All of appellant's comparables had a 3-car

garage and were located less than one mile from the subject property. Based on this evidence, appellant requested a reduction in the subject's assessment to \$62,852. In addition, appellant submitted a copy of the board of review's written decision reflecting a final assessment for the subject property of \$71,342.

The board of review submitted its "Board of Review Notes on Appeal" depicting a total assessed valuation for the subject property of \$71,342, with an improvement assessment of \$49,471, or \$16.43 per square feet of living area. In support of its contention of the correct assessment, the board of review submitted three equity comparable properties. Each of the board of review's equity comparables were improved with a 1-story, single-family dwelling, of either masonry, frame, or frame and masonry construction. They ranged: in size between 2,858 and 3,642 square feet of living area; in assessment between \$17.69 and \$26.00 per square foot of living area; between 3 and 4.1 bathrooms; either 1 or 2 fireplaces; and in age between 1 and 46 years old. All of the board of review's comparables were located in the subarea of the subject property.

In rebuttal, appellant states the board of review should not be allowed to assess that subject property at a higher amount than the subsequent lien year's assessment, which was a reduction in assessment, based on the same facts, when the 2023 lien year's assessment was reduced by the Cook County Assessor.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds appellant has met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #4, #5, and #6. These comparables had improvement assessments that ranged from \$13.85 to \$14.11 per square foot of living area. They were most similar to the subject property in living area square footage, construction, and/or were closest to the subject property in proximity. The subject's improvement assessment of \$16.43 per square foot of living area falls above the range established by the best comparables in this record. Based on this record, the Board finds appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
