

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Delach
DOCKET NO.: 22-21809.001-R-1
PARCEL NO.: 01-01-124-042-0000

The parties of record before the Property Tax Appeal Board are Robert Delach, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,712
IMPR.: \$44,364
TOTAL: \$53,076

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 3,243 square feet of living area. The home is approximately 22 years old. Features include a full basement with finished area, central air conditioning, one fireplace, and a 2-car garage. The property has an 8,712 square foot site and is located in Barrington, Barrington Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information, including property characteristics printouts which were analyzed to verify/update data in the Section V grid analysis, on five equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 1-story or 1.5-story, class 2-04 dwellings of frame or

masonry exterior construction ranging in size from 2,793 to 3,374 square feet of living area. The homes range in age from 19 to 99 years old. Each comparable has a full basement with finished area and either a 2-car or a 3-car garage. Four comparables each have central air conditioning. Four comparables each have one or two fireplaces. The comparables have improvement assessments ranging from \$31,000 to \$52,004 or from \$10.55 to \$17.51 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$44,364 or \$13.68 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$82,000. The subject property has an improvement assessment of \$73,288 or \$22.60 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 1-story or 1.5-story, class 2-04 dwellings of frame exterior construction ranging in size from 2,569 to 2,876 square feet of living area. The homes range in age from 14 to 18 years old. Each comparable has a full basement with finished area, central air conditioning, either one or two fireplaces, and a 2-car garage. The comparables have improvement assessments ranging from \$64,407 to \$72,875 or from \$24.56 to \$28.37 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2 and #5 as well as the board of review comparables which are less similar to the subject in dwelling size than the other comparables in this record.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #3, and #4 which are overall more similar to the subject in location, class, and dwelling size with varying degrees of similarity in age and other features. These comparables have improvement assessments ranging from \$35,600 to \$52,004 or from \$10.55 to \$16.93 per square foot of living area. The subject's improvement assessment of \$73,288 or \$22.60 per square foot of living area falls above the range established by the best comparables in this record and is excessive. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement is not supported and a reduction, commensurate with the appellant's request, is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
