

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ihsan Musleh
DOCKET NO.: 22-21843.001-R-1
PARCEL NO.: 27-07-405-024-0000

The parties of record before the Property Tax Appeal Board are Ihsan Musleh, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,312
IMPR.: \$131,075
TOTAL: \$149,387

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 10,486 square feet of living area. The dwelling is approximately 16 years old. Features of the home include a full basement with finished area, central air conditioning, two fireplaces and a 4-car garage. The property has a 56,346 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-09 properties improved with 2-story dwellings of masonry exterior construction ranging in size from 5,449 to 10,406 square feet of living area. The dwellings are 12 to 30 years old and

have full basements with finished area. Each comparable has central air conditioning and one to four fireplaces. Three comparables each have a 3-car or a 3.5-car garage. The comparables have improvement assessments ranging from \$60,343 to \$116,976 or from \$10.87 to \$11.54 square feet of living area. Based on this evidence the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$149,387. The subject property has an improvement assessment of \$131,075 or \$12.50 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-09 properties improved with 2-story dwellings of masonry exterior construction ranging in size from 8,111 to 8,763 square feet of living area. The homes are 13 to 21 years old and have partial or full basements, two of which have finished area. Each comparable has central air conditioning, one to four fireplaces and a 3.5-car or a 4-car garage. The comparables have improvement assessments ranging from \$108,651 to \$135,439 or from \$13.13 to \$15.46 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine suggested comparables for the Board's consideration that have the same neighborhood and property classification codes as the subject. The Board gives less weight to appellant's comparables #1, #2, #4 and #5 due to differences in dwelling size when compared to the subject.

The Board finds the best evidence of equity to be appellant's comparable #3 along with the board of review comparables which are more similar to the subject in dwelling size and relatively similar in age and some features. These comparables have improvement assessments ranging from \$108,651 to \$135,439 or from \$11.24 to \$15.46 per square foot of living area. The subject's improvement assessment of \$131,075 or \$12.50 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
