

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rumana Siddiqui
DOCKET NO.: 22-21891.001-R-1
PARCEL NO.: 01-34-107-004-0000

The parties of record before the Property Tax Appeal Board are Rumana Siddiqui, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$24,149
IMPR.: \$58,838
TOTAL: \$82,987

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 5,103 square feet of living area and is approximately 25 years old. Features include a full basement with finished area, 3.5 bathrooms, central air conditioning, four fireplaces, and a 2-car garage. The property has a 60,374 square foot site and is located in South Barrington, Barrington Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with the same assessment neighborhood code as the subject. Evidence also includes property characteristics printouts from the Cook County Assessor's Office which were analyzed to verify/update data in the Section V grid analysis. The comparables are improved

with 2-story, class 2-09 dwellings of masonry or frame and masonry exterior construction ranging in size from 5,040 to 5,509 square feet of living area. The dwellings range in age from 29 to 37 years old. Each comparable has a full basement with four of these having finished area, 3.5 or 4.5 bathrooms, central air conditioning, from two to four fireplaces, and from a 3-car to a 4-car garage. The comparables have improvement assessments ranging from \$39,500 to \$47,500 or from \$7.71 to \$9.23 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$82,987. The subject property has an improvement assessment of \$58,838 or \$11.53 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 2-story, class 2-09 dwellings of masonry exterior construction ranging in size from 5,089 to 5,528 square feet of living area. The dwellings range in age from 22 to 27 years old. Each comparable has a full basement with finished area, central air conditioning, two or three fireplaces, and from a 2.5-car to a 4-car garage. The comparables have improvement assessments ranging from \$59,643 to \$103,847 or from \$11.72 to \$18.79 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board finds the parties' comparables are relatively similar to the subject in class, age, and dwelling size. However, the Board gives less weight to the appellant's comparable #3 which lacks basement finish, which is a feature of the subject, and board of review comparable #4 which has a substantially higher improvement assessment than the other comparables in this record, thus making this comparable an outlier. The seven remaining comparables have improvement assessments ranging from \$39,500 to \$73,007 or from \$7.71 to \$13.69 per square foot of living area. The subject's improvement assessment of \$58,838 or \$11.53 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the evidence in this record does not support a reduction in the subject's assessment.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
