

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Brittini Wilkens
DOCKET NO.: 22-21961.001-R-1
PARCEL NO.: 01-13-205-020-0000

The parties of record before the Property Tax Appeal Board are Brittini Wilkens, the appellant, by attorney Dora Cornelio of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,096
IMPR.: \$107,775
TOTAL: \$126,871

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 6,419 square feet of living area. The dwelling is approximately 16 years old. The home features a full basement that is finished with a formal recreation room, six full bathrooms, two half bathrooms, two fireplaces and a 4-car garage. The property has a 47,742 square foot site and is located in Inverness, Barrington Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located in Barrington and are improved with two-story dwellings of masonry or frame and masonry exterior construction ranging in size from 5,954 to

6,816 square feet of living area. The dwellings are from 33 to 83 years old. The comparables each have a full basement, four of which are finished with a recreation room. According to the property characteristic printouts provided by the appellant, each comparable has from three to six full bathrooms, an additional half bathroom, central air conditioning, one to three fireplaces and from a 2.5-car to a 4-car garage. The comparables have improvement assessments that range from \$41,000 to \$52,589 or from \$6.45 to \$7.72 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$47,051 or \$7.33 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$126,871. The subject property has an improvement assessment of \$107,775 or \$16.79 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located in Barrington or Inverness, two of which are within the subject's subarea. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 5,792 to 6,540 square feet of living area. The dwellings are from 16 to 22 years old. The comparables each have a full basement that is finished with a formal recreation room, three or five full bathrooms, from one to three additional half bathrooms, central air conditioning, from two to five fireplaces and either a 3-car or a 4-car garage. The comparables have improvement assessments that range from \$103,987 to \$146,212 or from \$17.06 to \$22.63 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables, as well as board of review comparable #3 which are located in a different city than the subject. Moreover, the appellant's comparables have significantly older dwelling ages, when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #4, which have the same assessment neighborhood code and property classification code as the subject. These three comparables are located in Inverness, like the subject and are overall more similar to the subject dwelling in size, design, age and some features. The comparables have improvement assessments ranging from \$103,987 to \$146,212 or from \$17.06 to \$22.63 per square foot of living area. The subject's improvement assessment of \$107,775 or \$16.79 per

square foot of living area falls within the range established by the best comparables in the record in terms of total improvement assessment and below the comparables on a per square foot basis. After considering adjustments to the best comparables in the record for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
