

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Bach  
DOCKET NO.: 22-22296.001-R-1  
PARCEL NO.: 05-34-412-015-0000

The parties of record before the Property Tax Appeal Board are William Bach, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$16,244  
**IMPR.:** \$88,830  
**TOTAL:** \$105,074

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of stucco exterior construction with 2,960 square feet of living area. The home is approximately 96 years old. Features include a full basement, central air conditioning, one fireplace, and a 2-car garage. The property has a 5,907 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the subject's assessment neighborhood code. The comparables are improved with class 2-06 dwellings of frame, masonry, or stucco exterior construction ranging in size from 2,597 to 2,841 square feet of living area. The homes range in

age from 85 to 101 years old. Each comparable has a full or partial basement and a 1-car or a 2-car garage. Two comparables each have central air conditioning. Two comparables each have one or two fireplaces. The comparables have improvement assessments ranging from \$66,442 to \$71,130 or from \$23.40 to \$25.78 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The appellant's submission included a copy of the "Cook County Board of Review" final decision dated March 27, 2023 for the 2022 tax year disclosing the subject has a total assessment of \$105,074. The Residential Appeal petition filed by the appellant also disclosed that the subject has an improvement assessment of \$88,830 or \$30.01 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-06 dwellings of stucco exterior construction ranging in size from 2,895 to 3,085 square feet of living area. The homes range in age from 102 to 114 years old. The comparables each have a full or partial basement, central air conditioning, one or two fireplaces, and a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$96,625 to \$103,250 or from \$33.03 to \$33.47 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six suggested comparables for the Board's consideration. The Board gives less weight to appellant comparables #1 and #3 which are less similar in age or dwelling size than other comparables in this record. Further, appellant comparable #3 lacks central air conditioning which the subject features.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and the board of review comparables which are similar to the subject in design/class, age, dwelling size, and most features. These comparables have improvement assessments ranging from \$71,130 to \$103,250 or from \$25.04 to \$33.47 per square foot of living area. The subject's improvement assessment of \$88,830 or \$30.01 per square foot of living area falls within the range established by the best comparables in this record. After considering necessary adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
