

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Judy Chang
DOCKET NO.: 22-22334.001-R-1
PARCEL NO.: 05-08-300-009-0000

The parties of record before the Property Tax Appeal Board are Judy Chang, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$60,746
IMPR.: \$82,464
TOTAL: \$143,210

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 3,436 square feet of living area. The home is approximately 98 years old. Features include a partial basement, central air conditioning, three fireplaces, and a 2-car garage. The property has a 27,612 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-06 dwellings of masonry exterior construction ranging in size from 3,216 to 3,467 square feet of living area. The homes range in age from 70 to 100 years old. Each comparable has a full basement, one or two fireplaces, and a 1.5-car or a

2-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$56,817 to \$69,340 or from \$17.67 to \$20.94 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The appellant's submission included a copy of the "Cook County Board of Review" final decision dated March 27, 2023 for the 2022 tax year disclosing the subject has a total assessment of \$143,210. The Residential Appeal petition filed by the appellant also disclosed that the subject has an improvement assessment of \$82,464 or \$24.00 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-06 dwellings of masonry or frame and masonry exterior construction ranging in size from 3,264 to 3,824 square feet of living area. The homes range in age from 71 to 102 years old. The comparables each have a full or partial basement and from one to three fireplaces. Three comparables each have central air conditioning. Three comparables each have from a 1-car to a 3-car garage. The comparables have improvement assessments ranging from \$80,353 to \$110,203 or from \$24.62 to \$28.82 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to appellant comparables #1, #3, and #4 as well as board of review comparables #2, #3, and #4 due to substantial differences from the subject in age, garage amenity, and/or central air conditioning.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and board of review comparable #1 which are overall more similar to the subject in class, age, dwelling size, and other features. The two best comparables have improvement assessments of \$64,360 and \$110,203 or \$18.56 and \$28.82 per square foot of living area respectively. The subject's improvement assessment of \$82,464 or \$24.00 per square foot of living area is bracketed by the two best comparables in this record. Based on this record and after considering the necessary adjustments to the two best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
