

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Peter Sperling
DOCKET NO.: 22-23081.001-R-1
PARCEL NO.: 01-24-206-021-0000

The parties of record before the Property Tax Appeal Board are Peter Sperling, the appellant, by attorney George N. Reveliotis of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,166
IMPR.: \$23,966
TOTAL: \$31,132

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 1,578 square feet of living area. The dwelling is approximately 39 years old. The home features a concrete slab foundation, 2½ bathrooms, a fireplace and a 2.5-car garage. The property has an 8,958 square foot site and is located in Hoffman Estates, Barrington Township, Cook County. The subject is classified as a class 2-07 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on seven equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located from .03 to .17 of a mile from the subject, four of which are located within the same block and along the same street as the subject property. The

comparables are improved with two-story dwellings of frame exterior construction each containing 1,578 square feet of living area. The dwellings are from 33 to 40 years old. Three comparables each have a full or partial unfinished basement and four comparables each have a concrete slab foundation. Each comparable has 1½ or 2½ bathrooms, three comparables have central air conditioning, five comparables each have a fireplace and each comparable has either a 2-car or a 2.5-car garage. The comparables have improvement assessments that range from \$21,935 to \$23,788 or from \$13.90 to \$15.07 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$18,000 or \$11.41 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." The appellant provided a copy of the Cook County Board of Review decision for the 2022 tax year disclosing the total assessment for the subject of \$31,132. The appellant revealed in the appeal petition that the subject property has an improvement assessment of \$23,966 or \$15.19 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located within the same block and along the same street as the subject property. The comparables are improved with two-story dwellings of frame exterior construction ranging in size from 1,486 to 1,805 square feet of living area. The dwellings are each 39 years old. One comparable has a full basement with finished area and three comparables each have a concrete slab foundation. Each comparable has 1½ or 2½ bathrooms, two comparables have central air conditioning, one comparable has a fireplace and each comparable has either a 2-car or a 2.5-car garage. The comparables have improvement assessments that range from \$23,465 to \$29,440 or from \$15.79 to \$16.31 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eleven comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #2, #3 and #6, as well as board of review comparable #3 due to their dissimilar basement foundations, when compared to the subject's concrete slab foundation. Additionally, board of review comparable #3 is considerably larger in dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #4, #5 and #7, along with board of review comparables #1, #2 and #4, which have the same assessment neighborhood code and property classification code as the subject. These seven comparables have concrete slab foundations, like the subject and are similar, if not identical to the subject in dwelling size, design and age. However, the dwellings have varying degrees of similarity when compared to the subject in central air conditioning, bathroom count, fireplace count and garage capacity indicating adjustments would be required to make these comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$21,935 to \$25,210 or from \$13.90 to \$15.98 per square foot of living area. The subject's improvement assessment of \$23,966 or \$15.19 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
