**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of frame exterior construction with 4,324 square feet of living area. The home is approximately 25 years old. Features include a full basement with finished area,<sup>1</sup> central air conditioning, two fireplaces, and a 3-car garage. The property has a 15,000 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with the subject's assessment neighborhood code. The comparables are improved with class 2-08 dwellings of frame exterior construction ranging in size from 3,852 to 4,439 square feet of living area. The homes range in age from 18 to 34 years old. The comparables

each have a full basement, but no data was supplied on whether they have basement finish. Each comparable has central air conditioning, from one to three fireplaces, and from a 2-car to a 3-car garage. The comparables have improvement assessments ranging from \$100,252 to \$132,549 or from \$24.81 to \$30.06 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$122,456.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$179,281. The subject property has an improvement assessment of \$146,281 or \$33.83 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the subject's assessment neighborhood code. The comparables are improved with 2-story, class 2-08 dwellings of frame or masonry exterior construction ranging in size from 4,290 to 4,570 square feet of living area. The homes range in age from 3 to 16 years old. The comparables each have a full or partial basement with finished area, central air conditioning, from two to five fireplaces, and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$164,876 to \$216,613 or from \$36.08 to \$48.93 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

In written rebuttal, the appellant pointed out differences in age and construction between the subject property and the board of review comparables #1, #2, and #3.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to board of review comparables #2 and #3 which differ substantially from the subject in age.

The Board finds the best evidence of assessment equity to be the appellant's comparables as well as board of review comparables #1 and #4 which are similar to the subject in location, class, age, dwelling size, and other features. These comparables have improvement assessments ranging from \$100,252 to \$186,615 or from \$24.81 to \$43.50 per square foot of living area. The subject's improvement assessment of \$146,281 or \$33.83 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering the necessary adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
