

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andrew Krech
DOCKET NO.: 22-24190.001-R-1
PARCEL NO.: 05-28-104-003-0000

The parties of record before the Property Tax Appeal Board are Andrew Krech, the appellant, by Dora Cornelio, attorney-at-law of Schmidt Salzman & Moran, Ltd. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$30,560
IMPR.: \$77,440
TOTAL: \$108,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of masonry exterior construction containing 3,226 square feet of living area. The dwelling is approximately 95 years old. Features of the property include an unfinished basement, central air conditioning, one fireplace, 2½ bathrooms, and a 1-car garage. The property has a 9,550 square foot site located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables composed of class 2-06 properties improved with two-story dwellings of frame, masonry or frame and masonry exterior construction that range in size from 3,152 to 3,400 square feet of living area. The homes range in age from 89 to 94 years old. Each comparable

has a full basement with a recreation room, one or two fireplaces and a 1-car or 2-car garage. The comparables have 1½, 2, 2½, 3 or 3½ bathrooms. Three comparables have central air conditioning. These properties have the same assessment neighborhood code as the subject property. Their improvement assessments range from \$52,312 to \$63,560 or from \$16.22 to \$18.92 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$56,196.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$108,000. The subject property has an improvement assessment of \$77,440 or \$24.00 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-06 properties improved with two-story dwellings of masonry exterior construction that range in size from 2,454 to 3,384 square feet of living area. The dwellings range in age from 92 to 96 years old. Each property has a full basement with three having finished area, central air conditioning, one or two fireplaces and a 1-car or 2-car garage. These properties have 2, 2½ or 4½ bathrooms. The comparables have the same assessment neighborhood code as the subject property and are located in the same block as the subject property. Comparable #2 is located along the same street and within the same block as the subject property. These properties have improvement assessments ranging from \$62,000 to \$84,440 or from \$24.24 to \$29.85 per square foot of living area. The board of review contends the building assessed value per square foot for the comparables is higher than the subject, which support the assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. Although more similar to the subject in location than are the comparables provided by the appellant, the Board gives less weight to board of review comparables #1, #3 and #4 due to differences from the subject dwelling in size being approximately 14% to 24% smaller than the subject home. The Board finds the appellant's comparables and board of review comparable #2 are similar to the subject in size and age containing from 3,152 to 3,400 square feet of living area and ranging in age from 89 to 96 years old. The comparables have varying degrees of similarity to subject in features requiring adjustments to make them more equivalent to the subject property. These properties have improvement assessments ranging from \$52,312 to \$84,440 or from \$16.22 to \$24.95 per square foot of living area. The best overall comparable in terms of location, age, size and features is board of review comparable #2 with an improvement assessment of \$84,440 or \$24.95 per square foot of living area. The subject's improvement assessment of \$77,440 or \$24.00 per square foot of living area falls within the range established by the best comparables in

this record and is below the overall best comparable submitted by the parties. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
