

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Kissane
DOCKET NO.: 22-24297.001-R-1
PARCEL NO.: 05-18-202-008-0000

The parties of record before the Property Tax Appeal Board are Paul Kissane, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$17,500
IMPR.: \$81,391
TOTAL: \$98,891

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,831 square feet of living area. The dwelling is approximately 14 years old. Features of the home include a full basement, central air conditioning, a fireplace and a 2-car garage. The property has a 7,000 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five comparables located within the same assessment neighborhood as the subject. The comparables consist of class 2-78, 2-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 2,639 to 3,022 square feet of living area. The homes are from 42 to 59

years old. Each comparable has a full basement and a 1-car or a 2-car garage. Three comparables each have central air conditioning, and four comparables each have 1 or 2 fireplaces. The comparables have improvement assessments ranging from \$58,125 to \$74,500 or from \$21.86 to \$24.65 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$65,650 or \$23.19 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$98,891. The subject property has an improvement assessment of \$81,391 or \$28.75 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on two grid analyses with a total of seven comparables, of which the board of review comparable #1 within each grid analysis is the same property. For clarity in the record, the three comparables on the second grid analysis, beginning with PIN #05-18-202-004-0000, have been renumbered as comparables #5, #6 and #7, respectively. The seven comparables are located within the same assessment neighborhood as the subject and within the subject's block or approximately $\frac{1}{4}$ of a mile of the subject. The comparables consist of class 2-78, 2-story dwellings of frame, masonry, stucco or frame and masonry exterior construction ranging in size from 2,634 to 3,291 square feet of living area. The homes are from 16 to 19 years old. Each comparable has a full basement, central air conditioning, 1 to 3 fireplaces and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$85,342 to \$105,925 or from \$25.93 to \$38.53 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of twelve equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and the board of review's comparables #2 and #5 due to significant differences in their older ages or larger dwelling sizes when compared to the subject property.

The Board finds the best evidence of assessment equity to be the board of review's comparables #1, #3, #4, #6 and #7. These comparables are relatively similar to the subject in location, age, dwelling size and most features. These five comparables have improvement assessments ranging from \$85,342 to \$101,500 or from \$25.93 to \$38.53 per square foot of living area. The subject's improvement assessment of \$81,391 or \$28.75 per square foot of living area falls below the range established by the best comparables in the record on an overall basis and within the range

on a per square foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
