

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thaddeus & Caroline Budde
DOCKET NO.: 22-24400.001-R-1
PARCEL NO.: 05-34-400-011-0000

The parties of record before the Property Tax Appeal Board are Thaddeus & Caroline Budde, the appellants, by attorney Joanne Elliott, of Elliott & Associates Attorneys, PLLC, in Des Plaines, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$23,375
IMPR.: \$158,446
TOTAL: \$181,821

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 4,457 square feet of living area and which is approximately 7 years old. Features include a full basement, central air conditioning, 5 full bathrooms, 2 half-baths, two fireplaces, and a two-car garage. The property has an 8,500 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on eight equity comparables located in the same neighborhood code as the subject and from .37 to .95 of a mile from the subject. The comparables consist of class 2-08 two-story dwellings of frame or frame and masonry exterior construction which range in age from 2 to 18 years old. The dwellings

range in size from 4,161 to 4,765 square feet of living area. Each comparable has a full basement, central air conditioning, 3, 4 or 5 full bathrooms, 1 half-bath, and a two-car or a three-car garage. Seven comparables have one, two or three fireplaces. The comparables have improvement assessments ranging from \$112,902 to \$147,150 or from \$25.47 to \$30.88 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$128,539 or \$28.84 per square foot of living area, which the appellant contends is the "uniform assessed value" of the comparables presented.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$181,821. The subject property has an improvement assessment of \$158,446 or \$35.55 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject, where three are either on the same block or ¼ of a mile from the subject. The comparables consist of class 2-08 two-story dwellings of frame or masonry exterior construction which are 3 to 13 years old. The dwellings range in size from 3,822 to 4,330 square feet of living area. Features include full basements, 4 or 5 full bathrooms, 1 or 2 half-baths, central air conditioning, one or two fireplaces, and a two-car garage. The comparables have improvement assessments ranging from \$149,125 to \$177,375 or from \$35.81 to \$41.35 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of twelve suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparables #1, #2, #4, #5, #7 and #8 along with board of review comparables #2 and #3, due to significant differences in age as the comparables are either newer or nearly twice as old as the 7-year-old subject.

The Board finds the best evidence of assessment equity in the record consists of the appellant's comparables #3 and #6 along with board of review comparables #1 and #4, which present various degrees of similarity to the subject. These best comparables range in age from 5 to 10 years old which brackets the subject's age. These comparables necessitate adjustments to account for differences in dwelling size, bathroom count, fireplace count, and/or garage size when compared to the subject. The best comparables have improvement assessments ranging from \$116,718 to \$177,375 or from \$27.70 to \$41.35 per square foot of living area. The subject's improvement assessment of \$158,446 or \$35.55 per square foot of living area is within

the range of the best comparables both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
