

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Clauson
DOCKET NO.: 22-24939.001-R-1
PARCEL NO.: 08-21-409-002-0000

The parties of record before the Property Tax Appeal Board are Paul Clauson, the appellant, by Robert Rosenfeld, attorney-at-law of Robert H. Rosenfeld & Associates, LLC in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,280
IMPR.: \$17,720
TOTAL: \$23,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a one-story dwelling of frame and masonry exterior construction with 1,171 square feet of living area. The dwelling is approximately 65 years old. Features of the property include a crawl space foundation, central air conditioning, one bathroom, and a 1-car garage. The property has a 6,600 square foot site located in Elk Grove Village, Elk Grove Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables consisting of class 2-03 properties improved with one-story dwellings of frame and masonry exterior construction that range in size from 1,136 to 1,262 square feet of living area. The homes are 64 or 65 years old. Each comparable has a crawl space foundation, central air

conditioning, 1 or 1½ bathrooms, and a 1-car garage. The comparables have the same assessment neighborhood code as the subject property and are located from .1 to .8 of a mile from the subject property. Their improvement assessments range from \$15,694 to \$18,042 or from \$13.40 to \$14.60 per square foot of building area. The appellant requested the subject's improvement assessment be reduced to \$16,570.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$23,000. The subject property has an improvement assessment of \$17,720 or \$15.13 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables composed of class 2-03 properties improved with one-story dwellings of frame and masonry exterior construction each with 1,171 square feet of living area. Each dwelling is 65 years old. One comparable has a slab foundation and two comparables have a crawl space foundation. Two comparables have central air conditioning. Each property has one bathroom and a 1-car garage. Comparable #3 is described as having other improvements but no further details were provided. The comparables have the same assessment neighborhood code as the subject and located in the same block or ¼ of a mile from the subject property. Their improvement assessments range from \$18,720 to \$21,720 or from \$15.99 to \$18.55 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on seven equity comparables similar to the subject in location, age, style, construction and dwelling size. The Board gives less weight to board of review comparable #1 due to differences from the subject in foundation and the fact the property has no central air conditioning, which is a feature of the subject property. The remaining comparables range in size from 1,136 to 1,262 square feet of living area with a crawl space foundation, central air conditioning, and a 1-car garage. Appellant's comparables #2, #3 and #4 have an additional half bathroom in relation to the subject suggesting these would require downward adjustments to make them more equivalent to the subject for this difference. These six comparables have improvement assessments that range from \$15,694 to \$21,720 or from \$13.40 to \$18.55 per square foot of living area. The subject's improvement assessment of \$17,720 or \$15.13 per square foot of living area falls within the range established by the best comparables in this record.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. *Apex Motor Fuel Co. v. Barrett*, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not all assessed at identical levels,

all that the constitution requires is a practical uniformity which exists based on the evidence in this record.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
