

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Margaret Duval
DOCKET NO.: 22-24957.001-R-1
PARCEL NO.: 10-12-107-002-0000

The parties of record before the Property Tax Appeal Board are Margaret Duval, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,625
IMPR.: \$58,745
TOTAL: \$73,370

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of stucco exterior construction with 2,503 square feet of living area. The dwelling is approximately 111 years old. The home features a full basement with finished area,¹ central air conditioning, 1 fireplace, and a 2-car garage. The property has a 6,500 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five comparables that are located within the same assessment neighborhood code as the subject. The comparables

¹ The Board finds the subject has a full basement with finished area as reported in the appellant's residential appeal petition.

consist of class 2-06, 2-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 2,444 to 2,721 square feet of living area. The dwellings are 72 to 98 years old. The comparables have full basements with finished area and 1 or 2 fireplaces. Three comparables have central air conditioning, and three comparables have either a 1-car or a 2-car garage. The comparables have improvement assessments that range from \$34,500 to \$52,125 or from \$14.12 to \$19.66 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$44,453 or \$17.76 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$73,370. The subject property has an improvement assessment of \$58,745 or \$23.47 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that are located within the same assessment neighborhood code as the subject and within the subject's same subarea or approximately $\frac{1}{4}$ of a mile from the subject. The comparables consist of class 2-06, 2-story dwellings of stucco exterior construction ranging in size from 2,413 to 3,040 square feet of living area. The dwellings are 96 to 119 years old. The comparables have a partial or full unfinished basement and one fireplace. Three comparables have central air conditioning, and two comparables have either a 1-car or a 2-car garage. The comparables have improvement assessments that range from \$57,791 to \$72,200 or from \$23.75 to \$24.86 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #3 and #4 which are less similar to the subject in age than the other comparables in the record. The board also gives less weight to the board of review comparable #3 due its considerably larger dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and #5 as well as the board of review comparables #1, #2 and #4. These comparables are located in the same assessment neighborhood as the subject and are also more similar to the subject in dwelling size, age and/or some features. However, each comparable lacks a basement finish, central air conditioning amenity and/or a garage amenity, unlike the subject, suggesting upward adjustments would be required for these features to make them more equivalent to the subject. These five comparables have improvement assessments that range from \$45,950 to \$65,112 or

from \$17.76 to \$24.86 per square foot of living area. The subject's improvement assessment of \$58,745 or \$23.47 per square foot of living area falls within the range established by the best comparables in the record. After considering the appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
