

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jessica Williamson
DOCKET NO.: 22-25387.001-R-1
PARCEL NO.: 10-12-409-002-0000

The parties of record before the Property Tax Appeal Board are Jessica Williamson, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC, in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,450
IMPR.: \$34,550
TOTAL: \$44,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,263 square feet of living area and which is approximately 128 years old. Features include a full basement, and 2 full bathrooms. The property has a 4,200 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject and from .4 to .9 of a mile from the subject. The comparables consist of class 2-03 one-story dwellings of frame exterior construction which range in age from 98 to 101 years old. The dwellings range in size from 1,092 to 1,440 square feet of living area and have full basements, 1, 1½ or 2 bathrooms, and

three comparables have either a 1.5-car or a 2-car garage. Two comparables also each have a fireplace. The comparables have improvement assessments ranging from \$28,635 to \$36,144 or from \$25.10 to \$26.28 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$32,636 or \$25.84 per square foot of living area representing the average of the comparables presented.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$44,000. The subject property has an improvement assessment of \$34,550 or \$27.36 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located in the same neighborhood code as the subject and same block or subarea of the subject. The comparables consist of class 2-03 1.5-story dwellings of frame exterior construction which range in age from 98 to 116 years old. The dwellings range in size from 1,057 to 1,294 square feet of living area and have full or partial basements, and 1, 1½ or 2 bathrooms. Comparable #2 has central air conditioning, comparable #3 has a fireplace, and two comparables have one-car and two-car garages, respectively. The comparables have improvement assessments ranging from \$30,982 to \$35,532 or from \$27.45 to \$29.31 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparables #1 and #3 as well as board of review comparable #1, due to significant differences in dwelling sizes when compared to the subject property.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 and #4 along with board of review comparables #2 and #3, each of which are relatively similar to the subject in location, dwelling size, age, foundation type, and some other features. The appellant's comparables differ in design from the subject suggesting adjustments for this difference. Two comparables differ in bathroom count and each comparable has a garage which is not a feature of the subject suggesting additional adjustments are necessary to make the comparables more equivalent to the subject. These four best comparables have improvement assessments ranging from \$30,800 to \$35,532 or from \$25.77 to \$27.46 per square foot of living area. The subject's

improvement assessment of \$34,550 or \$27.36 per square foot of living area is within the range of the best comparables both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
