

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Meguru Machida
DOCKET NO.: 22-25986.001-R-1
PARCEL NO.: 07-36-211-020-0000

The parties of record before the Property Tax Appeal Board are Meguru Machida, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,720
IMPR.: \$32,589
TOTAL: \$39,309

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame exterior construction with 1,917 square feet of living area. The dwelling is approximately 38 years old. Features include a full basement, central air conditioning, one fireplace, and a 2-car garage. The property has a 7,680 square foot site and is located in Elk Grove, Schaumburg Township, Cook County. The subject is classified as a class 2-07 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the subject's assessment neighborhood and within 0.43 of a mile from the subject property. The comparables are improved with 2-story, class 2-07 homes of frame exterior construction ranging in size from 1,854 to 1,917 square feet of living area. The

dwellings range in age from 31 to 33 years old. Each comparable has a full basement, central air conditioning, and a 2-car garage. Three comparables each have one fireplace. The comparables have improvement assessments ranging from \$23,822 to \$29,844 or from \$12.72 to \$15.74 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement to \$28,966.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$39,309. The subject property has an improvement assessment of \$32,589 or \$17.00 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the subject's assessment neighborhood and on the same block, one of which is along the same street, as the subject property. The comparables are improved with 2-story, class 2-07 homes of frame exterior construction ranging in size from 1,835 to 1,917 square feet of living area. The dwellings range in age from 36 to 38 years old. Each comparable has a full basement, central air conditioning, one fireplace, and a 2-car or a 3-car garage. Comparable #2 was reported to have other improvement, but additional details were not disclosed. The comparables have improvement assessments ranging from \$31,984 to \$34,043 or from \$17.43 to \$18.32 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be sustained.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of seven equity comparables for the Board's consideration. The Board finds each of the parties' comparables to be similar to the subject in location, design/class, age, dwelling size, and other features. The parties' comparables have improvement assessments ranging from \$23,822 to \$34,043 or from \$12.72 to \$18.32 per square foot of living area. The subject's improvement assessment of \$32,589 or \$17.00 per square foot of living area falls within the range established by the comparables in this record. After considering appropriate adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
