

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: VPP Holdings, LLC
DOCKET NO.: 22-26857.001-R-1
PARCEL NO.: 31-03-202-037-0000

The parties of record before the Property Tax Appeal Board are VPP Holdings, LLC, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,038
IMPR.: \$3,239
TOTAL: \$4,277

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 1,188 square feet of living area. The dwelling is approximately 51 years old. Features include a concrete slab foundation, 1½ bathrooms, and central air conditioning. The property has a 1,259 square foot site and is located in Country Club Hills, Rich Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same neighborhood code, the same street and within .4 of a mile from the subject. The comparables are improved with class 2-95 two-story dwellings of frame exterior construction ranging in size from 1,180 to 1,212 square feet of living area and

range in age from 44 to 50 years old. Each comparable has a concrete slab foundation, 1 or 1½ bathrooms, and central air conditioning. The comparables have improvement assessments ranging from \$2,739 to \$2,925 and from \$2.32 to \$2.41 per square foot of living area.

Based on this evidence, the appellant requested that the improvement assessment be reduced to \$2,816 or \$2.37 per square foot of living area which is the “average” of the comparables presented according to the appellant.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$4,277. The subject property has an improvement assessment of \$3,239 or \$2.73 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code and ¼ of a mile from the subject property. The comparables consist of class 2-95 one-story or two-story dwellings of frame exterior construction ranging in size from 1,040 to 1,183 square feet of living area. The dwellings range in age from 42 to 50 years old. Three comparables have a concrete slab foundation and comparable #3 has a full basement. Features include 1 or 1½ bathrooms and three comparables have central air conditioning. Comparable #4 has a one-car garage. The comparables have improvement assessments ranging from \$3,353 to \$4,067 or from \$2.93 to \$3.50 per square foot of living area.

Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparable #2 as well as board of review comparables #3 and #4, due to differences in bathroom count, lack of air conditioning, foundation type and/or story height when compared to the subject property. The Board has given reduced weight to board of review comparable #2, due to the difference in dwelling size of more than 12% when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #3 and #4 as well as the board of review comparable #1, which are similar to the subject in location, story height, foundation type, bathroom count, and/or air conditioning feature. Each of the four best comparable necessitate adjustments for superior age when compared to the subject and adjustments for differences in dwelling size as well in order to make the comparables more

similar to the subject. These four comparables have improvement assessments ranging from \$2,739 to \$3,543 or from \$2.32 to \$3.01 per square foot of living area. The subject's improvement assessment of \$3,239 or \$2.73 per square foot of living area falls within the range established by the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

In conclusion, after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
