

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Pranav Parekh
DOCKET NO.: 22-28057.001-R-1
PARCEL NO.: 08-27-102-110-0000

The parties of record before the Property Tax Appeal Board are Pranav Parekh, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,539
IMPR.: \$51,460
TOTAL: \$54,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story apartment building of masonry exterior construction with 5,329 square feet of building area. The building is approximately 44 years old. Features of the building include a full basement finished with an apartment, six full bathrooms and central air conditioning. The property has an approximately 2,212 square foot site and is located in Elk Grove, Elk Grove Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11, 2-story buildings of frame and masonry exterior construction that each contain 5,686 square feet of building area. The buildings are each 49 years old. Each building has a full basement finished with a recreation room and six full bathrooms. The comparables have improvement assessments that range from \$40,904 to \$43,970 or from

\$7.19 to \$7.73 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$38,954 or \$7.31 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$54,999. The subject property has an improvement assessment of \$51,460 or \$9.66 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11, 2-story buildings of masonry exterior construction that contain 4,935 square feet of building area. The dwellings are 42 or 44 years old. Each building has a full basement finished with an apartment and six full bathrooms. The comparables have improvement assessments ranging from \$53,647 to \$54,558 or from \$10.87 to \$11.06 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine suggested equity comparables for the Board's consideration. The Board finds that all of the comparables are similar to the subject in location, age and some features. However, each of the comparables lack central air conditioning, suggesting upward adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$40,904 to \$54,558 or from \$7.16 to \$11.06 per square foot of building area. The subject's improvement assessment of \$51,460 or \$9.66 per square foot of building area, falls within the range of the comparables in this record. Based on this record and after considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
