

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eric Sladcik
DOCKET NO.: 22-31248.001-R-1
PARCEL NO.: 31-11-216-010-0000

The parties of record before the Property Tax Appeal Board are Eric Sladcik, the appellant, by attorney Glenn Guttman of Rieff Schramm Kanter & Guttman in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,184
IMPR.: \$4,062
TOTAL: \$12,246

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 998 square feet of living area. The dwelling is approximately 82 years old. Features of the home include a crawl space foundation, central air conditioning and a 2-car garage. The property has an approximately 81,849 square foot site and is located in Homewood, Rich Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on three comparable sales that are located in Homewood and have the same assessment neighborhood code as the subject. The comparables each have a site that contains 81,849 square feet of land area. The comparables are class 2-06, class 2-03 and class 2-09 properties, respectively, that are improved with 1-story or 2-story dwellings of frame

or frame and masonry exterior construction ranging in size from 1,064 to 5,075 square feet of living area. The dwellings are 29 to 82 years old. Two comparables each have a crawl space or a concrete slab foundation and comparable #3 has a partial unfinished basement. Two comparables each have a fireplace and each comparable has a 2-car, a 2.5-car or a 3-car garage.¹ The properties sold from July 2018 to June 2020 for prices ranging from \$44,500 to \$390,000 or from \$41.82 to \$76.85 per square foot of living area, land included. Based on this evidence, the appellant requested the subject's assessment be reduced to \$5,779, reflecting a market value of \$57,790 or \$57.91 per square foot of living area, land included, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$12,246. The subject's assessment reflects a market value of \$122,460 or \$122.70 per square foot of living area, including land, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment the board of review submitted information on four comparable properties that are located in Homewood, two of which have the same assessment neighborhood code as the subject. The comparables have sites that contain either 41,120 or 81,849 square feet of land area. The comparables are class 2-02 properties that are improved with 1-story dwellings of frame exterior construction ranging in size from 400 to 827 square feet of living area and in age from 73 to 80 years old. Three comparables each have a concrete slab foundation and comparable #2 has a partial unfinished basement. Three comparables each have a 1-car or a 2-car garage. The properties sold from February 2019 to May 2022 for prices ranging from \$58,700 to \$222,900 or from \$129.73 to \$269.53 per square foot of living area, land included. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains seven comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables #1 and #3 due to their substantially larger dwelling sizes and/or considerably newer age when compared to the subject. Additionally, the appellant's comparable #1 had a sale date that occurred in 2018 less proximate in time to the January 1,

¹ The appellant submitted property characteristic printouts for each comparable which disclosed the garage sizes of the comparables. Also included with the submission were Multiple Listing Service (MLS) datasheets for two of the comparables and a property characteristic printout and MLS datasheet for PIN 31-01-207-002-000, which was not reported in the appellant's grid analysis nor was it discussed in the brief provided by the appellant's attorney. Therefore, the Board will not further address the additional sale in its analysis.

2022 assessment date than other comparable sales in the record. The Board has given reduced weight to board of review comparables #1, #2 and #4 due to their sale dates occurring in 2019 and 2022, less proximate to the lien date at issue or they have a considerably smaller dwelling size when compared to the subject.

The Board finds the appellant's comparable #2 and board of review comparable #3 sold more proximate in time to the assessment date at issue and are more similar to the subject in dwelling size and age. These two comparables sold in June 2020 and October 2021 for prices of \$44,500 and \$165,000 or for \$41.82 and \$233.71 per square foot of living area, including land. The subject's assessment reflects a market value of \$122,460 or \$122.70 per square foot of living area, including land, which is bracketed by the two most similar comparable sales in record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not warranted based on overvaluation.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
