

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: CJR Realty, Inc.
DOCKET NO.: 22-32280.001-R-1
PARCEL NO.: 12-27-406-073-0000

The parties of record before the Property Tax Appeal Board are CJR Realty, Inc., the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,576
IMPR.: \$48,000
TOTAL: \$54,576

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family apartment building of masonry exterior construction with 4,883 square feet of gross building area and which is approximately 62 years old. Features include a full basement, and 6 full bathrooms. The property has a 6,263 square foot site and is located in River Grove, Leyden Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject along with property characteristics sheets which were used to correct bathroom count information of the comparables. The comparables consist of class 2-11 two-story or three-story buildings of

masonry exterior construction that are 31 to 57 years old. The buildings range in size from 4,005 to 5,037 square feet of gross building area. Each comparable has a full basement, 3 bathrooms, and four comparables each also have 2 half-baths. Four comparables have either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$36,486 to \$39,708 or from \$7.88 to \$9.27 per square foot of gross building area. Based on this evidence, the appellant requested a reduced improvement assessment of \$43,995 or \$9.01 per square foot of gross building area representing the median of the comparables presented.

The board of review submitted its “Board of Review Notes on Appeal” disclosing the total assessment for the subject of \$54,576. The subject property has an improvement assessment of \$48,000 or \$9.83 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code and subarea or ¼ of a mile from the subject. The comparables consist of class 2-11 two-story or three-story buildings of masonry exterior construction which are 34 to 70 years old. The buildings range in size from 4,077 to 5,264 square feet of gross building area. Each comparable has a full basement and 4 or 6 full bathrooms. Comparable #2 has a fireplace and three comparables have 2-car or 3.5-car garages. The comparables have improvement assessments ranging from \$41,968 to \$53,960 or from \$9.96 to \$12.18 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject’s assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant’s comparables along with board of review comparable #4, due to difference in age and/or bathroom count when compared to the subject.

The Board finds the best evidence of assessment equity consists of board of review comparables #1, #2 and #3, where are similar to the subject in location, design, bathroom count and some features. Adjustments to these comparables for differences in age, building size and/or garage amenity are necessary to make the comparables more equivalent to the subject. The comparables have improvement assessments ranging from \$43,050 to \$53,960 or of \$10.25 and \$12.18 per square foot of gross building area. The subject has an improvement assessment of \$48,000 or \$9.83 per square foot of gross building area, which is with the range of the best comparables in terms of overall improvement assessment and below the range on a per-square-foot of building area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables in the record for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
