

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lawrence Sowa
DOCKET NO.: 22-32830.001-R-1
PARCEL NO.: 02-07-306-004-0000

The parties of record before the Property Tax Appeal Board are Lawrence Sowa, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$58,019
IMPR.: \$58,000
TOTAL: \$116,019

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 6,264 square feet of living area. The dwelling is 24 years old. Features of the home include a full basement, central air conditioning, 2 fireplaces and a 4-car garage.¹ The property is located in Inverness, Palatine Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the subject's assessment neighborhood and from 0.07 to 0.87 of a mile from the subject property. Two comparables are located within the same block or street as the subject property. The comparables are improved with class 2-09, 2-story dwellings of

¹ The property description of the subject property was gleaned from the appellant's grid analysis.

masonry exterior construction ranging in size from 5,397 to 7,154 square feet of living area. The dwellings are from 28 to 39 years old. Each comparable has a full basement, central air conditioning, a fireplace, and from a 3-car to a 4-car garage. The comparables have improvement assessments ranging from \$39,000 to \$55,500 or from \$7.02 to \$8.27 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$47,794 or \$7.63 per square foot of living area.

The appellant provided a copy of the Cook County Board of Review final decision disclosing the subject property has a total assessment of \$116,019. The appellant's Residential Appeal petition indicated the subject has an improvement assessment of \$58,000 or \$9.26 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" for a property with a different PIN and property address other than the subject property. The board of review included a notation without any substantive evidence stating the subject property has a "Multi Improvement: Subject's ppsf: (\$58,000/6,264). SUB PIN Shown. PROPERTY'S PIN IS ACTUALLY 02-07-306-004-0000."

Nevertheless, in support of its contention of the correct assessment, the board of review submitted information on three comparables located within the subject's assessment neighborhood and within the subject's subarea or ¼ of a mile from the subject property. One comparable is located within the same block and along the same street as the subject. The comparables are improved with class 2-09, 2-story dwellings of masonry exterior construction ranging in size from 5,872 to 6,687 square feet of living area. The dwellings are from 26 to 33 years old. Each comparable has a full basement with two having finished area, central air conditioning, 2 or 4 fireplaces and either a 3.5-car or a 4-car garage. The comparables have improvement assessments ranging from \$65,625 to \$73,148 or from \$9.81 to \$12.38 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #3 and #4 which are less similar to the subject in age and/or dwelling size than the other comparables in the record.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2 and #5 as well as the board of review's comparables. These comparables are overall most similar to the subject in design, age, dwelling size, and location with varying degrees of similarity to the

subject in other features. These five comparables have improvement assessments ranging from \$44,500 to \$73,148 or from \$7.33 to \$12.38 per square foot of living area. The subject's improvement assessment of \$58,000 or \$9.26 per square foot of living area falls within the range established by the best comparables in this record. After considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
