

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Aleksandra & Jarosla Jecmen
DOCKET NO.: 22-33527.001-R-1
PARCEL NO.: 12-22-300-026-0000

The parties of record before the Property Tax Appeal Board are Aleksandra & Jarosla Jecmen, the appellants, by attorney Timothy C. Jacobs, of Kovitz Shifrin Nesbit, in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,236
IMPR.: \$18,763
TOTAL: \$22,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 1,228 square feet of living area and which is approximately 73 years old. Features include a concrete slab foundation, a bathroom, and a two-car garage. The property has a 4,707 square foot site and is located in Franklin Park, Leyden Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellants submitted information on seven equity comparables located in the same neighborhood code as the subject and from the same street to 1.9-miles from the subject. The comparables consist of class 2-03 one-story dwellings of frame, masonry or frame and masonry exterior construction which are 69 to 104 years old. The

dwellings range in size from 1,304 to 1,772 square feet of living area. No details of foundation type were provided in the appellants' submission. The homes have 1, 1½ or 2 bathrooms, and five comparables have from a 1-car to a 2.5-car garage. The comparables have improvement assessments ranging from \$15,585 to \$21,868 or from \$10.80 to \$12.34 per square foot of living area. Based on this evidence, the appellants requested a reduced improvement assessment of \$14,180 or \$11.55 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$22,999. The subject property has an improvement assessment of \$18,763 or \$15.28 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located in the same neighborhood code as the subject and the same block or ¼ of a mile from the subject. The comparables consist of class 2-03 one-story dwellings of masonry exterior construction which are 65 or 73 years old. The dwellings range in size from 1,000 to 1,107 square feet of living area. Two comparables have concrete slab foundations and comparable #3 has a full basement. Comparable #2 has central air conditioning. The homes have 1 or 2 bathrooms, and a one-car or a two-car garage. The properties have improvement assessments ranging from \$16,977 to \$19,815 or from \$15.35 to \$19.82 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of ten suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellants' comparables #1, #2, and #4 through #7 as well as board of review comparable #3, due to substantial differences in dwelling size of approximately 18% to 44% when compared to the subject and other comparables in the record.

The Board finds the best evidence of assessment equity in the record consists of appellants' comparable #3 along with board of review comparables #1 and #2, which are each relatively similar to the subject in location, age, design, dwelling size, and some features. These best comparables necessitate adjustments to account for differences in bathroom count, and/or garage capacity when compared to the subject. The best comparables have improvement assessments ranging from \$15,585 to \$19,031 or from \$11.95 to \$17.19 per square foot of living area. The subject's improvement assessment of \$18,763 or \$15.28 per square foot of living area is within

the range of the best comparables both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
