

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Nocher
DOCKET NO.: 22-33629.001-R-1
PARCEL NO.: 09-12-430-029-0000

The parties of record before the Property Tax Appeal Board are John Nocher, the appellant(s), by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,437
IMPR.: \$48,951
TOTAL: \$60,388

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry construction with 3,499 square feet of living area. The dwelling is approximately 73 years old. Features of the home include a full basement, central air conditioning, and a two-car garage. The property has a 10,892 square foot site and is located in Glenview, Maine Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The appellant submitted the Cook County Board of Review decision letter on 2022 Assessed Valuations disclosing a total assessment for the subject of \$63,046 and an improvement assessment of \$51,609. In support of the argument seeking a reduction in assessment the appellant submitted information on four class 2-04 equity comparable properties with varying degrees of similarities to the subject which are

located within a 1.1-mile radius of the subject. The improvements ranged: in age from 46 to 123 years; in size from 2,427 to 2,790 square feet of living area; and in improvement assessment from \$13.68 to \$14.20 per square foot of living area. Based on this evidence the appellant is seeking a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" indicating that the triennial cycle for subject township starts in the year 2019. The triennial cycle for the subject township starts in 2022. In support of its contention of the correct assessment the board of review submitted information on four class 2-04 equity comparable properties with varying degrees of similarities to the subject which are located within the subarea of the subject. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant *met* this burden of proof and a reduction in the subject's assessment *is* warranted.

The parties submitted eight equity comparable properties for the Board's consideration in determining assessment equity. The Board finds the best evidence of assessment equity to be *appellant's comparables #2, #3, and #4*. These comparables are similar to subject in garage space and central air conditioning. These comparables are younger in age and smaller in square feet of living area and one has one-and-one-half more bathroom than subject. The board of review's reference to the previous triennial cycle calls into question, for this Board, the accuracy of the information provided for each of the submitted suggested comparable. Therefore, the Board gives no weight to the comparable properties submitted by the board of review. Appellant's comparables had improvement assessments that ranged from \$14.00 to \$14.20 per square foot of living area. The subject's improvement assessment of \$14.75 per square foot of living area falls above the range established by the best comparables in this record. Based on this record the Board finds the appellant *did* demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment *is* justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
