

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Catherine Vallely
DOCKET NO.: 22-33648.001-R-1
PARCEL NO.: 12-25-116-027-0000

The parties of record before the Property Tax Appeal Board are Catherine Vallely, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,708
IMPR.: \$21,248
TOTAL: \$26,956

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,110 square feet of living area. The dwelling is approximately 91 years old. Features include a full basement with finished area and a 2-car garage. The property has a 4,228 square foot site and is located in Elmwood Park, Leyden Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story or 1.5-story, class 2-03 homes of masonry exterior construction ranging in size from 1,125 to 1,328 square feet of living area. The dwellings range in age from 71 to 96 years old. Four comparables each have a full basement and one comparable has a slab

foundation. One comparable has central air conditioning. Each comparable has two fireplaces. Three comparables each have a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$15,100 to \$20,314 or from \$13.37 to \$16.01 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment to \$16,739.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$26,956. The subject property has an improvement assessment of \$21,249 or \$19.14 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story, class 2-03 masonry exterior construction ranging in size from 1,052 to 1,110 square feet of living area. The dwellings are either 93 or 94 years old. Each comparable as a full basement and a 1-car or a 2-car garage. Two comparables each have central air conditioning. The comparables have improvement assessments ranging from \$22,444 to \$27,816 or from \$21.25 to \$25.45 per square foot of living area. The board of review asserts the assessed values per square foot for the submitted comparables support the subject's assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables, as well as board of review comparables #2 and #4, due to differences relative to the subject in design, age, dwelling size, foundation type, central air conditioning, and/or garage amenity.

The Board finds the best evidence of assessment equity to be the board of review comparables #1 and #3 which are overall more similar to the subject in location, design/class, age, dwelling size, and other features. The two best comparables have improvement assessments of \$23,438 and \$23,682 or \$21.25 and \$21.34 per square foot of living area. The subject's improvement assessment of \$21,249 or \$19.14 per square foot of living area falls below the two best comparables in this record. Based on this record and after considering appropriate adjustments to the two best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
