

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Aleksandra & Jaro Jecmen
DOCKET NO.: 22-34181.001-R-1
PARCEL NO.: 12-31-205-016-0000

The parties of record before the Property Tax Appeal Board are Aleksandra & Jaro Jecmen, the appellants, by attorney Timothy C. Jacobs, of Kovitz Shifrin Nesbit in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,590
IMPR.: \$16,806
TOTAL: \$21,396

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling¹ of frame exterior construction with 1,477 square feet of living area. The dwelling is approximately 73 years old. Features of the home include a basement,² central air conditioning, and a 2-car garage. The property has a 10,200 square foot site and is located in Northlake, Leyden Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

¹ The parties differ regarding the subject's design. The Board finds the best evidence of design is found in the board of review's evidence which includes a photograph depicting a 1.5-story home.

² The parties differ regarding the subject's foundation. The board of review reported the subject has a basement and the appellant reported the subject has a slab foundation with finished basement area. Based on this evidence, the Board concludes the subject has a basement.

The appellants contend assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellants submitted information on four equity comparables located within the same assessment neighborhood code as the subject and within 0.6 of a mile from the subject. The comparables are improved with 1-story, class 2-03 homes of frame or frame and masonry exterior construction ranging in size from 1,700 to 1,726 square feet of living area. The dwellings range in age from 67 to 74 years old. Three homes have a crawl space foundation and one home is reported to have a slab foundation with finished basement area, indicating this home has a basement. Each comparable has central air conditioning and from a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$14,477 to \$18,410 or from \$8.41 to \$10.83 per square foot of living area. Based on this evidence the appellants requested a reduction in the subject's improvement assessment to \$14,727.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$21,396. The subject property has an improvement assessment of \$16,806 or \$11.38 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject and 0.25 of a mile from the subject. The comparables are improved with 1.5-story, class 2-03 homes of frame exterior construction ranging in size from 1,249 to 1,548 square feet of living area. Three homes have a crawl space foundation and one home has a basement. Two homes have central air conditioning and one home has a fireplace. Each comparable has from a 2-car to a 3-car garage. The comparables have improvement assessments ranging from \$16,410 to \$18,410 or from \$11.89 to \$14.08 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayers contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of eight equity comparables for the Board's consideration. The Board gives less weight to the appellants' comparables due to substantial differences from the subject in design. The Board finds the best evidence of assessment equity to be the board of review's comparables, which are more similar to the subject in design, age, location, and some features, although three of these comparables are much smaller homes than the subject, three comparable lack a basement that is a feature of the subject, and two comparables lack central air conditioning that is a feature of the subject, suggesting upward adjustments to these comparables would be needed to make them more equivalent to the subject. These comparables have improvement assessments that range from \$16,410 to \$18,410 or from \$11.89 to \$14.08 per square foot of living area. The subject's improvement assessment of \$16,806 or \$11.38 per square foot of

living area falls within the range established by the best comparables in terms of total improvement assessment and below the range on a per square foot basis. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
