

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bryna Dahlin
DOCKET NO.: 22-34559.001-R-1
PARCEL NO.: 13-13-403-015-0000

The parties of record before the Property Tax Appeal Board are Bryna Dahlin, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,392
IMPR.: \$75,391
TOTAL: \$82,783

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,495 square feet of living area. The dwelling was constructed in 1923 and is approximately 99 years old. Features of the home include a full basement with finished area, central air conditioning and a 1-car garage. The property has a 3,080 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-06 properties improved with 2-story dwellings of masonry exterior construction that range in size from 2,494 to 2,676 square feet of living area. The dwellings are 97 to 109 years

old and have full basements. However, the appellant did not address whether there was basement finish and only reported “n/a” in the finished basement area section of the grid analysis. Each comparable has central air conditioning; one comparable has a fireplace; and each comparable has a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$55,500 to \$75,377 or from \$22.25 to \$29.14 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject’s improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$82,783. The subject property has an improvement assessment of \$75,391 or \$30.22 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-06 properties improved with 2-story dwellings of masonry exterior construction ranging in size from 2,461 to 2,672 square feet of living area. The homes are 95 to 112 years old with comparables #1 and #2 reported as being “renovated.” The comparables have full basements with finished area. Three comparables have central air conditioning. Each comparable has a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$82,156 to \$109,848 or from \$32.22 to \$41.11 per square foot of living area. Based on this evidence the board of review requests confirmation of the subject’s assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight comparables for the Board’s consideration. The Board gives less weight to the appellant’s comparables which are not reported to have finished basement area which is a feature of the subject. The Board gives less weight board of review comparable #1 which appears to be an outlier due to its considerably higher improvement assessment when compared to the other comparables submitted by the board of review.

The Board finds the best evidence of assessment equity to be board of review comparables #2, #3 and #4 which overall are most similar to the subject in location, age, dwelling size and features. However, board of review comparable #2 was reported to be “renovated” and each comparable has more garage capacity when compared to the subject, suggesting downward adjustments are necessary to make these comparables more equivalent to the subject. Conversely, board of review comparable #4 lacks central air conditioning, suggesting an upward adjustment is necessary to make this comparable more equivalent to the subject. Nevertheless, the best comparables have improvement assessments ranging from \$82,156 to \$84,740 or from \$32.22 to \$33.38 per square foot of living area. The subject’s improvement assessment of \$75,391 or \$30.22 per square foot of living area falls below the range established by the best

comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
