

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel Rudolph
DOCKET NO.: 22-35021.001-R-1
PARCEL NO.: 14-08-117-021-0000

The parties of record before the Property Tax Appeal Board are Daniel Rudolph, the appellant, by Robert Rosenfeld, attorney-at-law of Robert H. Rosenfeld & Associates, LLC in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$30,000
IMPR.: \$34,100
TOTAL: \$64,100

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story multi-family building of masonry exterior construction containing 3,578 square feet of building area. The building is approximately 119 years old. Features of the property include a partial basement with finished area, three bathrooms, and a 2-car garage. The property has a 3,750 square foot site located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables consisting of class 2-11 properties improved with two-story buildings of masonry exterior construction that range in size from 3,605 to 3,728 square feet of building area and in age from 106 to 116 years old. Each comparable has a full basement with two having finished

area, two or three bathrooms, and a 2-car garage. The comparables have the same assessment neighborhood code as the subject property and are located from approximately .04 to .3 of a mile from the subject property. These properties have improvement assessments that range from \$31,970 to \$37,574 or from \$8.80 to \$10.16 per square foot of building area. The appellant requested the subject's improvement assessment be reduced to \$33,991.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$71,000. The subject property has an improvement assessment of \$41,000 or \$11.46 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-11 properties improved with two-story buildings of masonry exterior construction that range in size from 2,162 to 2,878 square feet of building area. The buildings range in age from 108 to 119 years old. Each comparable has a full basement with three having finished area, and two or three bathrooms. One comparable has central air conditioning and two comparables have either a 2-car or a 3-car garage. These properties have the same assessment neighborhood code as the subject and are located approximately ¼ of a mile from the subject. Their improvement assessments range from \$31,320 to \$42,000 or from \$12.50 to \$15.58 per square foot of building area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of assessment equity to be the comparables submitted by the appellant as these properties are improved with buildings more similar to the subject building in size than are the comparables submitted by the board of review. The appellant's comparables are also similar to the subject property in location and features. These four comparables have improvement assessments that range from \$31,970 to \$37,574 or from \$8.80 to \$10.16 per square foot of building area. The subject's improvement assessment of \$41,000 or \$11.46 per square foot of building area falls above the range established by the best comparables in this record. Based on this record the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
