

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patrick J. and Patri Reynolds
DOCKET NO.: 22-35025.001-R-1
PARCEL NO.: 02-12-307-004-0000

The parties of record before the Property Tax Appeal Board are Patrick J. and Patri Reynolds, the appellants, by attorney Kyle Gordon Kamego, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,802
IMPR.: \$34,198
TOTAL: \$43,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,509 square feet of living area. The dwelling is approximately 50 years old. Features include a full basement, central air conditioning, one fireplace, and a 2-car garage. The property has a 13,040 square foot site and is located in Palatine, Palatine Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellants submitted information on four equity comparables located in the subject's assessment neighborhood code and from 2.8 to 3.1 miles from the subject property. The comparables are improved with 2-story, class 2-78 dwellings of frame or frame and masonry exterior construction ranging in size from 2,278 to 2,751 square feet

of living area. The homes range in age from 37 to 60 years old. Each comparable has a full or partial basement with the appellant reporting in the grid analysis that the finished basement area is "N/A," central air conditioning, one fireplace, and a 2-car garage. The comparables have improvement assessments ranging from \$25,653 to \$32,726 or from \$11.16 to \$12.21 per square foot of living area. Based on this evidence, the appellants requested that the improvement assessment be reduced to \$29,280.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$43,000. The subject property has an improvement assessment of \$34,198 or \$13.63 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the subject's assessment neighborhood code. Two comparables are located on the subject's tax block, with one these also along the same street, and two comparables are ¼ of mile from the subject property. The comparables are improved with 2-story, class 2-78 dwellings of frame or frame and masonry exterior construction with either 2,478 or 2,509 square feet of living area. The homes are either 46 or 50 years old. Each comparable has a full basement, central air conditioning, one fireplace, and a 2-car garage. The comparables have improvement assessments ranging from \$35,925 to \$37,247 or from \$14.50 to \$14.85 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives reduced weight to the appellants' comparables which are located 2.8 to 3.1 miles from the subject, less proximate to the subject than the board of review comparables.

The Board finds the best evidence of assessment equity to be the board of review comparables which are more similar to the subject in location, design/class, age, dwelling size, and most features. The best comparables have improvement assessments ranging from \$35,925 to \$37,247 or from \$14.50 to \$14.85 per square foot of living area. The subject's improvement assessment of \$34,198 or \$13.63 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to the best equity comparables for differences from the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
