

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sidney Grisby
DOCKET NO.: 22-35095.001-R-1
PARCEL NO.: 09-15-301-032-0000

The parties of record before the Property Tax Appeal Board are Sidney Grisby, the appellants, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,114
IMPR.: \$19,885
TOTAL: \$27,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame and masonry exterior construction with 1,242 square feet of living area. The dwelling is 65 years old. Features of the home include a basement with finished area,¹ 2 fireplaces and a 2-car garage. The property has a 12,484 square foot site located in Des Plaines, Maine Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables located within the subject's assessment neighborhood and within 0.23 of a mile from the subject property. The comparables consist of class 2-03, 1-story or 1.5-story dwellings of frame and

masonry exterior construction ranging in size from 1,062 to 1,481 square feet of living area. The dwellings are from 63 to 82 years old. Each comparable has a crawl space foundation, 1 or 2 fireplaces and from a 1-car to a 2.5-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$13,977 to \$16,000 or from \$9.44 to \$11.73 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$27,999. The subject property has an improvement assessment of \$19,885 or \$16.01 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three comparables located within the subject's assessment neighborhood and within the subject's block or approximately ¼ of a mile from the subject property. The comparables consist of class 2-03, 1-story dwellings of frame and masonry exterior construction ranging in size from 1,163 to 1,320 square feet of living area. The dwellings are from 56 to 67 years old. Two comparables each have a basement with one having finished area, and one comparable has a crawl space foundation. Two comparables each have central air conditioning and a fireplace. Each comparable has either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$21,637 to \$24,510 or from \$16.39 to \$20.86 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables and the board of review's comparable #3 due to their dissimilar foundation types when compared to the subject. Additionally, the appellant's comparable #5 also differs from the subject in design and age.

The Board finds the best evidence of assessment equity to be the board of review's comparables #1 and #2 which overall are most similar to the subject in location, design, age, dwelling size and some features. These two comparables have improvement assessments of \$21,637 and \$24,510 or \$16.39 and \$20.86 per square foot of living area. The subject's improvement assessment of \$19,885 or \$16.01 per square foot of living area falls below the improvement assessments of the two best comparables in the record. After considering adjustments to the two best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
