

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Hermant Shah
DOCKET NO.: 22-35705.001-R-1
PARCEL NO.: 09-13-319-148-0000

The parties of record before the Property Tax Appeal Board are Hermant Shah, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,000
IMPR.: \$22,000
TOTAL: \$25,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a townhome of frame and masonry exterior construction with 1,221 square feet of living area.¹ The townhome is approximately 59 years old. Features include a partial basement. The property has a 2,091 square foot site and is located in Niles, Maine Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same assessment neighborhood code as the subject and

on the same tax block and/or street as the subject property. The comparables are improved with class 2-95 townhomes of frame and masonry exterior construction ranging in size from 1,221 to 1,276 square feet of living area. The comparables are each 61 years old. Each comparable has a full or partial basement, with the appellant reporting "NA" for finished basement area, and central air conditioning. The comparables have improvement assessments of either \$21,000 or \$22,000 or ranging from \$17.20 to \$17.83 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$25,000. The subject property has an improvement assessment of \$22,000 or \$18.02 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject and located on the same block and street as the subject property. The comparables are improved with class 2-95 townhomes of masonry or frame and masonry exterior construction with each having 1,221 square feet of living area. The comparables are each 61 years old. Each comparable has a full or partial basement, two of which have finished area. Each comparable has an improvement assessment of \$22,000 or \$18.02 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven equity comparables for the Board's consideration, each of which is located on the same tax block and/or street as the subject property and are slightly older dwellings than the subject. The Board also finds each of the parties' comparables to be similar to the subject in class, dwelling size, and many features. The parties' have improvement assessments of either \$21,000 and \$22,000 or ranging from \$17.20 to \$18.02 per square foot of living area. The subject's improvement assessment of \$22,000 or \$18.02 per square foot of living area falls at the top of the range established by the comparables in this record, matching the board of review comparables which set the upper limit of this range on both an overall and a per square foot basis. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
