

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Martinello Properties, LLC
DOCKET NO.: 22-35769.001-R-1
PARCEL NO.: 12-25-217-002-0000

The parties of record before the Property Tax Appeal Board are Martinello Properties, LLC, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,682
IMPR.: \$36,569
TOTAL: \$42,251

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, multi-family building of masonry exterior construction with 2,900 square feet of gross building area. The building is approximately 52 years old. Features include a full basement with finished area. The property has a 4,209 square foot site and is located in Elmwood Park, Leyden Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information, including property characteristics printouts, on five equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 1.5-story or 2-story, class 2-11 multi-family buildings of frame, stucco, and frame and masonry exterior construction ranging in size from 2,648 to 2,925 square feet of gross building area. The buildings range in age from 83 to

106 years old. Each comparable has a full basement, four of which have finished area, and a 2-car or a 2.5-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$26,376 to \$29,563 or from \$9.77 to \$10.41 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal." The appellant submitted a copy of the final decision disclosing the total assessment the subject of \$42,251. The subject property has an improvement assessment of \$36,569 or \$12.61 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with 2-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,770 to 3,007 square feet of gross building area. The buildings range in age from 43 to 55 years old. Each comparable has a full basement with three of these having finished area. Three comparables each have from a 2-car to a 3-car garage. The comparables have improvement assessments ranging from \$35,376 to \$41,850 or from \$12.77 to \$13.92 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to substantial differences from the subject in age.

The Board finds the best evidence of assessment equity to be the board of review comparables which are similar to the subject in location, design/class, age, and gross building size with varying degrees of similarity in basement finish, garage amenity, and other features. The best comparables have improvement assessments ranging from \$35,376 to \$41,850 or from \$12.77 to \$13.92 per square foot of gross building area. The subject's improvement assessment of \$36,569 or \$12.61 per square foot of gross building area falls within the range established by the best comparables in this record on an overall basis and below the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
