Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels of land improved with a 133-year-old, three-story, masonry, six-unit, multi-family building containing approximately 9,872 square feet of building area. The property is located in Chicago, Lake View Township, Cook County and is classified as a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted an appraisal which estimated the subject's market value as of January 1, 2021, of \$1,905,000. The appraiser utilized the income and sales comparison approaches to value to estimate the subject's market value. The appraisal discloses an inspection was conducted on May 13, 2022. The appraiser opined the highest and best use of the property as improved is its continuation of its present use.

Under the income approach, the appraiser analyzed comparable apartment building units ranging in rental size from two-bedroom/two-bath to three-bedroom/three and one-half baths. The appraisal concluded estimated rental rates for the various units to arrive at a potential gross income of \$261,600. The appraiser applied a vacancy and collection rate of 5% to arrive at an effective gross income of \$248,520. Expenses were estimated at \$63,125 to arrive at a net operating income of \$185,395.

In determining a capitalization rate (cap rate), the appraiser utilized the band of investment methods to estimate a loaded cap rate of 9.73% to arrive at a value for the subject under the income approach of \$1,905,000, rounded.

Under the sales comparison approach, the appraiser analyzed five sales in arriving at the estimate of value. The sales properties are described as multi-story, six-unit, apartment buildings ranging in size from 5,040 to 6,357 square feet of building area. They sold for prices ranging from \$170,000 to \$215,000 per unit. After making adjustments for pertinent factors, the appraiser estimated a value for the subject under the sales comparison approach of \$275,000 per unit or a total of \$1,650,000, rounded.

In reconciling the approaches to value, the appraiser gave primary emphasis to the income approach and secondary emphasis to the sales comparison approach to arrive at an estimate of value as of January 1, 2021 of \$1,905,000.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the assessment for one parcel. The subject's total assessment is \$274,182 which reflects a market value of \$2,741,820 using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%.

In support of the current assessment, the board of review submitted three comparables with sales information on two. These properties are described as two or three-story, masonry, multi-family buildings containing from 2,406 to 8,052 square feet of building area. They sold from October 2021 to July 2022 for prices ranging from \$390.63 to \$561.10 per square foot of building area.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The appellant's appraiser utilized the income and sales comparison approaches to value in determining the subject's market value. The current assessment reflects a market value above this value. The Board finds this appraisal to be persuasive because the appraisal discloses that the appraiser inspected the subject, reviewed the property's history, and used similar properties in the sales comparison approach. Therefore, the Board finds the subject property's market value of

Docket No: 22-35961.001-R-1 through 22-35961.002-R-1

\$1,905,000 as of the assessment date at issue. Since market value has been established the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10% shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
