

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Ling
DOCKET NO.: 22-37257.001-R-1
PARCEL NO.: 13-15-232-008-0000

The parties of record before the Property Tax Appeal Board are John Ling, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,280
IMPR.: \$24,267
TOTAL: \$45,547

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,958 square feet of living area. The dwelling is approximately 121 years old. Features of the home include a full unfinished basement, central air conditioning and a 2.5-car garage. The property has a 7,600 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-04 properties improved with one or more story dwellings of frame exterior construction that range in size from 1,862 to 2,094 square feet of living area. The

dwelling are 101 to 146 years old and have partial or full basements. Each comparable has central air conditioning and a 2-car garage. The comparables have improvement assessments ranging from \$17,102 to \$22,828 or from \$8.47 to \$11.10 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$45,547. The subject property has an improvement assessment of \$24,267 or \$12.39 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-04 properties improved with 1.5-story dwellings of frame or masonry exterior construction ranging in size from 1,832 to 2,127 square feet of living area. The homes are 120 to 143 years old and have partial or full basements with one having finished area. Three comparables have central air conditioning. Each comparable has a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$24,618 to \$35,904 or from \$13.44 to \$17.96 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight comparables for the Board's consideration. The Board gives less weight to appellant's comparables #1, #3 and #4 as well as board of review comparables #1 and #2 which are less similar to the subject in age or have finished basement area unlike the subject.

The Board finds the best evidence assessment equity to be appellant's comparable #2 along with board of review comparables #3 and #4 which overall are more similar to the subject in location, age, dwelling size, and features. The comparables have improvement assessments ranging from \$19,859 to \$35,904 or from \$10.01 to \$17.96 per square foot of living area. The subject's improvement assessment of \$24,267 or \$12.39 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
