

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Layla Erzurumly
DOCKET NO.: 22-37261.001-R-1
PARCEL NO.: 13-16-319-015-0000

The parties of record before the Property Tax Appeal Board are Layla Erzurumly, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,900
IMPR.: \$27,100
TOTAL: \$39,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of stucco exterior construction with 2,365 square feet of living area. The dwelling is approximately 107 years old. Features of the home include a full unfinished basement, 2½ bathrooms and a 2-car garage. The property has a 4,250 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located from .1 of a mile to 1 mile from the subject. The appellant reported the comparables are class 2-04 properties that are improved with one or more-story dwellings of frame exterior construction

ranging in size from 2,017 to 2,810 square feet of living area. Three dwellings are from 98 to 109 years old. Comparable #4 was reported to be "1019" years old, a nonsensical number. The comparables each have a full basement. However, the appellant did not address whether there was basement finish and only reported "n/a" in the finished basement area section of the grid analysis. Each comparable has from 1 to 3½ bathrooms and three comparables each have either a 1-car or a 2-car garage. The comparables have improvement assessments that range from \$18,500 to \$31,150 or from \$8.65 to \$11.09 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$23,957 or \$10.13 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$39,000. The subject property has an improvement assessment of \$27,100 or \$11.46 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located in the same block or within .25 of a mile from the subject. The comparables are class 2-04 properties that are improved with 1.5-story dwellings of stucco exterior construction ranging in size from 1,841 to 2,326 square feet of living area. The dwellings are 105 or 110 years old. The comparables each have a full unfinished basement and 2 bathrooms. Two comparables have central air conditioning and each comparable has either a 1.5-car or a 2-car garage. The comparables have improvement assessments that range from \$27,410 to \$34,450 or from \$11.78 to \$16.10 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparable #1 due to its location being 1 mile away from the subject. The Board has also given less weight to the appellant's comparables #2 and #4 due to their lack of a garage or their considerably larger dwelling size, when compared to the subject. The Board has given reduced weight to board of review comparables #3 and #4, which have central air conditioning and/or a smaller dwelling size, when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #3, along with board of review comparables #1 and #2, which are overall more similar to the subject in location, dwelling size, age and most features. These three comparables have improvement assessments that range from \$22,064 to \$28,150 or from \$10.94 to \$13.40 per square foot of

living area. The subject's improvement assessment of \$27,100 or \$11.46 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
