

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mary Jo Howard  
DOCKET NO.: 22-37641.001-R-1  
PARCEL NO.: 10-32-407-013-0000

The parties of record before the Property Tax Appeal Board are Mary Jo Howard, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$14,635  
**IMPR.:** \$42,365  
**TOTAL:** \$57,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,800 square feet of living area. The dwelling was constructed in 1941 and is approximately 81 years old. Features of the home include a full basement with finished area, central air conditioning, and a fireplace. The property has a 5,854 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-06 properties improved with 2-story dwellings of masonry exterior construction that range in size from 2,772 to 3,074 square feet of living area. The dwellings are 75 to 81 years old

and have partial or full basements. However, the appellant did not address whether there was basement finish and only reported “n/a” in the finished basement area section of the grid analysis. Each comparable has one to three fireplaces and a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$37,250 to \$42,421 or \$13.44 or \$13.80 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject’s improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$57,000. The subject property has an improvement assessment of \$42,365 or \$15.13 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-06 properties improved with 2-story dwellings of masonry exterior construction ranging in size from 2,523 to 2,864 square feet of living area. The homes are 81 to 97 years old and have partial or full basements, with two having finished area. Two comparables have central air conditioning. Three comparables each have one fireplace and each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$39,550 to \$52,125 or from \$15.13 to \$18.20 per square foot of living area. Based on this evidence the board of review requests confirmation of the subject’s assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight comparables for the Board’s consideration that are similar to the subject in location, age and dwelling size with varying degrees of similarity in features. The Board finds adjustments would have to be considered for differences in central air conditioning, basement finish, number of fireplaces, and/or garage capacity when compared to the subject. The comparables have improvement assessments ranging from \$37,250 to \$52,125 or from \$13.44 to \$18.20 per square foot of living area. The subject’s improvement assessment of \$42,365 or \$15.13 per square foot of living area falls within the range established by the comparables in the record. Based on this record and after considering adjustments to the comparables for differences, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
