

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Phillip Keefe
DOCKET NO.: 22-38180.001-R-1
PARCEL NO.: 13-26-102-016-0000

The parties of record before the Property Tax Appeal Board are Phillip Keefe, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,125
IMPR.: \$34,878
TOTAL: \$48,003

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of masonry exterior construction with 3,143 square feet of living area. The building is approximately 104 years old. Features of the building include a full basement that is finished with an apartment, a fireplace and a 2-car garage. The property has a 3,750 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables with the same assessment neighborhood code as the subject and located .3 of a mile to 1.2 miles from the subject. The comparables are class 2-11 properties improved with multi-family buildings of masonry exterior construction ranging in size from 2,608 to 3,306 square feet of

building area. The buildings are 98 to 109 years old. Each comparable has a full basement and a 1-car, a 2-car or a 3-car garage. The comparables have improvement assessments that range from \$27,801 to \$34,875 or from \$10.55 to \$10.66 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$48,003. The subject property has an improvement assessment of \$34,878 or \$11.10 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject property and located on the same block as the subject or within ¼ mile from the subject. The comparables are class 2-11 properties improved with two-story multi-family buildings of masonry exterior construction ranging in size from 2,848 to 3,218 square feet of building area. The buildings are 94 to 113 years old and have full basements, two of which are finished with recreation rooms. Each comparable has a 2-car garage. The comparables have improvement assessments that range from \$32,936 to \$42,090 or from \$11.18 to \$13.73 per square foot of building area. Based on this evidence, the board of review requests confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight suggested equity comparables for the Board's consideration. The Board gives less weight to appellant's comparable #2 which is located 1 mile away and to appellant's comparable #4 which is less similar in size when compared to the subject.

The Board finds the best evidence of assessment equity to be appellant's comparables #1 and #3 along with the board of review comparables which are relatively similar to the subject in location, age, size and some features. The comparables have improvement assessments ranging from \$32,854 to \$42,090 or from \$10.55 to \$13.73 per square foot of building area. The subject's improvement assessment of \$34,875 or \$11.10 per square foot of building area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
