

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andrew Crowley  
DOCKET NO.: 22-38567.001-R-1  
PARCEL NO.: 09-35-303-022-0000

The parties of record before the Property Tax Appeal Board are Andrew Crowley, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$10,540  
**IMPR.:** \$26,418  
**TOTAL:** \$36,958

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1.5-story dwelling of masonry exterior construction with 1,773 square feet of living area. The dwelling is approximately 80 years old. Features include a full basement, central air conditioning, one fireplace, and a 2-car garage. The property has a 6,200 square foot site and is located in Park Ridge, Maine Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same assessment neighborhood as the subject. The comparables are improved with 1-story or 1.5-story, class 2-03 dwellings of masonry exterior construction ranging in size from 1,427 to 1,669 square feet of living area. The homes range in age from 66

to 76 years old. Each comparable has a full or partial basement, one or two fireplaces, and a 1.5-car or a 2-car garage. Four comparables each have central air conditioning. The comparables have improvement assessments ranging from \$21,394 to \$27,082 from \$13.78 to \$16.29 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$26,418.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$44,000. The subject property has an improvement assessment of \$33,460 or \$18.87 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in a different village and assessment neighborhood than the subject. The comparables are improved with 1-story, class 2-03 dwellings of frame or masonry exterior construction ranging in size from 1,151 to 1,228 square feet of living area. The homes range in age from 93 or 100 years old. Each comparable has a full basement. Two comparables each have central air conditioning. Three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$22,263 to \$24,600 or from \$18.52 to \$21.37 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains nine suggested equity comparables for the Board's consideration. The Board gives less weight to the board of review comparables which are located in a different neighborhood code and village than the subject. These comparables are also 31% to 35% smaller homes than the subject. The Board also gives less weight to the appellant's comparables #3 and #4 which differ substantially from the subject in dwelling.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #2, and #5 which are relatively similar to the subject in age, dwelling size, and other features. The best comparables have improvements ranging from \$22,636 to \$27,082 or from \$13.78 to \$16.29 per square foot of living area. The subject's improvement assessment of \$33,460 or \$18.87 per square foot of living area falls above the range established by the best comparables in this record and appears to be excessive. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment, commensurate with the appellant's request, is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
