

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Leszek Pastewka
DOCKET NO.: 22-38582.001-R-1
PARCEL NO.: 12-25-221-004-0000

The parties of record before the Property Tax Appeal Board are Leszek Pastewka, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,624
IMPR.: \$22,375
TOTAL: \$27,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,378 square feet of living area. The dwelling is approximately 96 years old. Features of the home include a full unfinished basement, one full bathroom, one half bathroom and a 2-car garage. The property has a 4,166 square foot site and is located in Elmwood Park, Leyden Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located from .11 to .52 of a mile from the subject property, one of which is located along the same street as the subject. The comparables are improved with

1-story or 1.5-story dwellings of frame or masonry exterior construction ranging in size from 1,418 to 1,555 square feet of living area. The dwellings are from 91 to 104 years old. The comparables each have a full basement, two of which are finished with a formal recreation room. Each comparable has one or two full bathrooms and either a 1-car, a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$16,946 to \$22,431 or from \$11.39 to \$15.01 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$18,190 or \$13.20 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." The appellant submitted a copy of the Cook County Board of Review decision for the 2022 tax year disclosing the total assessment for the subject of \$27,999. The subject property has an improvement assessment of \$22,375 or \$16.24 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located approximately ¼ of a mile from the subject, two of which are also along the same street as the subject property. The comparables are improved with 1-story or 1.5-story dwellings of frame or masonry exterior construction ranging in size from 1,202 to 1,302 square feet of living area. The dwellings are from 95 to 100 years old. The comparables each have a full basement, three of which are finished with a formal recreation room. Each comparable has one or two full bathrooms, two comparables have central air conditioning and three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$21,431 to \$23,431 or from \$16.46 to \$19.28 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2, #3 and #5, as well as board of review comparables #2, #3 and #4, which differ from the subject dwelling in design or size.

The Board finds the appellant's comparable #4 and board of review comparable #1 have the same assessment neighborhood code and property classification code as the subject. These two comparables are 1.5-story dwellings, like the subject and are overall more similar to the subject dwelling in size and age. However, the Board finds the comparables have varying degrees of similarity when compared to the subject in bathroom count and basement finish, suggesting

adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, these two comparables have improvement assessments of \$21,431 and \$22,431 or \$15.01 and \$16.46 per square foot of living area, respectively. The subject's improvement assessment of \$22,375 or \$16.24 per square foot of living area is bracketed by the two best comparables in the record. After considering adjustments to the best comparables in the record for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
