

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Thompson
DOCKET NO.: 22-40206.001-R-1
PARCEL NO.: 13-36-432-024-0000

The parties of record before the Property Tax Appeal Board are James Thompson, the appellant(s), by attorney Nicholas T. McIntyre, of Much Shelist, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,664
IMPR.: \$29,336
TOTAL: \$41,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2022 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-unit dwelling of frame construction with 1,920 square feet of living area. The dwelling is approximately 136 years old. Features of the home include a crawl space foundation. The property has a 2,592 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on July 7, 2022, for a price of \$410,000. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$60,542. The subject's assessment reflects a market value of \$605,420 or \$315.32 per square foot of living area, land included, when using the level of assessments for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance. In addition, the board of review contended that the subject property has another improvement in the form of a class 2-02 improvement. In support of this contention the board of review submitted an aerial photo of the subject property purporting to show a second improvement on the property as well as a screenshot of information for the subject property PIN indicating that there is also a class 2-02 improvement on the property.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales which took place from April 2021 to September 2022 for sales prices from \$620,000 to \$885,000 or \$300.29 to \$448.78 per square foot of living area, land included in the sale price. These comparable sales properties ranged in age from 98 to 132 years and in size from 1,972 to 2,236 square feet of living area.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in July 2022 for a price of \$410,000. The appellant provided evidence demonstrating the sale had the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related, the property was sold by a realtor, the property had been advertised on the open market, and it had not been sold due to foreclosure or using a contract for deed. In further support of the transaction the appellant submitted a copy of the settlement statement. The Board finds the purchase price is below the market value reflected by the assessment. The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction or sufficient evidence to refute the contention that the purchase price was reflective of market value. The board of review submitted an aerial photo which does not clearly depict any improvement on the property and which is accompanied by written description of the subject as contended by the appellant. The board of review submitted an undated screenshot purported to show the improvements on the property but which does not depict the class 2-11 improvement at all. Based on this record the Board finds the subject property had a market value of \$410,000 as of January 1, 2022. Since market value has been determined the level of assessments for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10% shall apply. 86 Ill.Admin.Code §1910.50(c)(2)

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
